Proceedings of the Government of His Highness the Maharaja of Mysore, (Judicial),—dated 2nd May 1892.

READ THE FOLLOWING PAPERS.—

Letter No. 2069—258-9 of the 9th July 1891, from the Assistant to the Resident in Mysore, forwarding copy of a letter from the Post Master General, Madras, requesting that the Postal Department may be exempted from paying stamp fees on copies of Criminal Proceedings required for Departmental purposes

Letter No. 6307—233, dated the 26th August 1891, from the Chief Secretary to the Dewan of Mysore, to the Assistant to the Resident in Mysore.

Adverting to your letters cited on the margin, addressed to the Dewan, I am directed to say that, in calling for court fees on copies of papers required for the use of the Postal Department, the Sub-Division Officer at French Rocks was probably under the impression that authenticated copies were required. If the court was informed, when the application was made, that the copies were required for *private use only*, the copies would have been granted without requiring the production of the court fees which, in such cases, have been remitted by the orders contained in Notification No. 343, dated 26th March 1884, copy of which is hereto annexed.

2. Such copies granted for private use and free of court fee charges are not authenticated by any official of the Court, and if they be made by licensed copyists employed in the court, they are liable to charge for copying fees

3. The Darbar see no objection to Post Office officials being allowed to attend Criminal Courts and take copies of papers in cases in which prosecutions may be instituted at the instance of the Postal Department; the officials so deputed being regarded as copyists specially lent to the court for the purpose of preparing the copies under the supervision of the Chief Ministerial officer of the court in which the proceedings have been held. This will save the Postal Department, charges for copying as well as for court fees. And if this be satisfactory to the Post Master General, I am to request that the Darbar may be favored with an intimation to that effect to enable it to issue the necessary instructions. But such taking copy of papers required, will be permitted only on presentation of an application on one anna court fee stamp required by Article I, Schedule II of the Court Fees Act, as the payment of this fee has not been remitted by His Highness' Government, nor has it been done by the Government of India, in British India.

Letter No 1365—259-91, dated 26th April 1892, from the Assistant to the Resident in Mysore, to the Dewan of Mysore, (with enclosure).

In reply to your letter No. 6307—233, dated the 26th August 1891, I am directed to inform you that the Post Master General at Madras has instructed his subordinates in the Mysore State to obtain copies of proceedings from courts in accordance with the proposals contained in your letter under reply. A copy of the Circular being issued by the Post Master General on the subject is enclosed for information.

2. I am to request that the necessary instructions may now be issued by the Darbar in this matter.

Circular No. 4A, dated Madras, the 7th April 1892, issued by the Post Master General, Madras, to all Superintendents and Inspectors of Post Offices in the Mysore Province.

When prosecutions are instituted by the Postal Department in the Mysore Province, unauthenticated copies of the proceedings may be obtained from the courts on presentation of an application bearing a one anna court fee stamp. These copies should be made and attested

*Proceedings of the Government of His Highness the Maharaja of Mysore,
(Judicial),—dated 2nd May 1892.*

by an official of the Post Office, who will be regarded, while so employed, as a copyist specially let in to the court for the purpose of preparing the copies under the supervision of the Chief Ministerial officer of the court in which the proceedings have been held. No other fees are payable on the copies thus obtained.

2. In the majority of cases, unauthenticated copies prepared in the manner above described will be found to meet all requirements. If however duly authenticated copies are required in cases of special importance, the court fees leviable on copies of that class and copying fee as well, will have to be paid by this Department; but before any such charge is incurred, the special sanction of this office should always be obtained permitting supervising officers to make the necessary application to the court.

No. 1992-9—CIR. 17, DATED BANGALORE, 2ND MAY 1892.

ORDER THEREON.—Communicated to the Deputy Commissioners of Districts for information and guidance and needful instructions to the courts subordinate to them.

Report on the Administration of Jails and Lock-ups in Mysore for the year 1890.

No. 2090-2100—CIR. 18, DATED BANGALORE, 5TH MAY 1892.

REVIEW THEREON.—During the year 1890, owing to the abolition of the Lock-ups at Mysore and Shimoga, the number of Lock-ups in the Province has been reduced by two. The number of Jails remained the same as before.

2. All the Jails and Lock-ups in the Province except the Lock-up at Bowringpet had the prescribed accommodation, and arrangements are stated to be in progress for extending the accommodation in the Bowringpet Lock-up.

3. The total number of persons brought into Jail during the year was 6,546 against 6,481 in the previous year, of whom 5,635 were discharged during the year, leaving 911 at its end, as against 878 at the end of the previous year. The daily average slightly increased from 880 to 904, of whom 824 were convicts, 73 under-trial and 7 Civil prisoners against 786, 87 and 7 respectively in 1889.

4. The number of convicts who remained in Jail at the end of the previous year was 764 males and 51 females and with the convictions and transfers from one Jail to another, the number rose to 2,965 males and 204 females. Of these, 2,203 males and 147 females either died or escaped or were released, or transferred to other Jails, leaving at the end of the year 762 males and 57 females.

5. There was an increase in the number of Juvenile convicts as compared with the previous year, the number having risen from 3 to 7. Of the other convicts, 619 were between the ages of 16 and 40, 169 between 40 and 60 and 24 above 60 against 601, 195 and 16 respectively in 1889.

*Proceedings of the Government of His Highness the Maharaja of Mysore,
(Judicial),—dated 5th May 1892.*

6. The previous occupations of the male convicts that remained in Jail at the end of the year were as shown below :—

Previous Occupation of Males.	1889.	1890.
	Males.	Males.
Persons employed under Government of Municipality or other Local authorities	39	49
Professional persons	78	93
Persons in Service or performing personal offices	67	53
Persons engaged in Agriculture and with Animals	330	319
Persons engaged in Commerce or Trade	78	65
Persons engaged in Mechanical Arts, &c.	82	31
Miscellaneous persons not otherwise classified	140	149
Total.....	764	762

7. Nearly a third of the convicts who remained in Jail at the end of the year were undergoing short sentences of imprisonment not exceeding one year, and nearly one-fourth were life convicts. The sentences of the rest varied from one to 10 years.

8. One hundred and thirty-eight of the convicts had been convicted of murder or attempt to commit murder, 112 of dacoity, 200 of theft and house-breaking and the rest of other offences of minor character.

9. It is observed that column 3 of Statement No. III has been left blank, the cause not being explained. The omission should be guarded against in future. The nature of imprisonment which is to be indicated by letters in that column is as follows :—

- A. Persons sentenced to simple imprisonment.
- B. Do rigorous do
- C. Do do with solitary confinement.
- D. Persons sentenced to rigorous imprisonment with whipping.

10. Of the 2,354 convicts that came into Jails, 130 (126 males and 4 females) or 5.09 per cent of the total number were old offenders, 90 of them having been previously convicted only once, 20 twice and 20 more than twice. Of these, 5 were Juveniles.

11. It is not explained how the old offenders have been identified, whether by the confessions of the prisoners, or by the Police Officers, before conviction or by the Jail Officers after conviction. The Inspector General is requested to give this information in his future reports and also state whether any arrangements can be made to prevent such habitual criminals falling into the company of the other convicts in the Jail.

12. *Escapes and Re-captures.*—Two prisoners escaped during the year from the Jails at Mysore and Bangalore, but they have been, shortly after, re-captured. It is satisfactory that there were no escapes from the Shimoga Jail, in which escapes used to be frequent.

*Proceedings of the Government of His Highness the Maharaja of Mysore,
(Judicial),—dated 5th May 1892.*

13. The total number of offences committed by prisoners was 85 against 68 in the previous year. The increase was chiefly in the Central Jail, Bangalore. The percentage of offences committed in the Bangalore Jail to the average number of prisoners in the Jail was 14·49, while the percentage of such offences in the Mysore and Shimoga Jails was only 4 and 7. The cause of this disparity is not apparent, and the Inspector General is requested to investigate the matter. Statement No. 6 does not show by how many prisoners the offences were committed, whether by different persons, or by the same persons at different times. The Inspector General is requested to suggest a revision of the Form No. 6, so that it may embody the above information.

14. The Government note that the mode of awarding punishments for offences in Jail varies in different Jails. In Mysore, all the offenders were punished by whipping, and in Shimoga, 7 out of 8 were whipped, while at Bangalore only 5 out of 69 were whipped. The nature of the punishment in each case must of course depend upon the character of the prisoners, but as a rule corporal punishment should be resorted to in as few cases as possible. In Madras, out of 3,316 prisoners who committed offences in 1890, only 40 were subjected to whipping. The Inspector General is requested to consider the matter and issue instructions to the Superintendents of Jails to resort to whipping as little as possible.

15. *Education.*—Of the 2,354 prisoners that came into the Jails, 2,048 were unable to read and write, 217 were able to read and write a little, and 89 were able to read and write well. The daily average number under instruction in Jails was 371 males and 25 females, which is 50 per cent of the daily average number in the Jails. The Inspector General remarks that convicts show little or no aptitude for learning, but that under strict discipline and enforced habits there is scope for advancement. It is not stated how many persons who received instruction were of tender age, and how many were grown up men. As remarked by the Commission of 1889 on the Jail management in India, the reformatory influence of education on grown up men is inappreciable. Education should therefore be limited to Juvenile convicts and not extended to grown up men, unless they show particular aptitude for the same.

16. There has been a decrease in the average as well as the total number of Prison officers employed during the year, the number being 56·26 and 212 against 73·14 and 285 in the previous year. Of these, one was a female employed as warder in the Central Jail. All the warders but one were well behaved. The Government however note that of the 212 Prison officers employed in the Jails, no less than 165 were shown as belonging to the Mysore Jail, whereas the Central Jail whose convict population is more than double that of Mysore, had only 31 officers. The cause of this variation should be explained and the establishment in the Mysore Jail reduced if possible.

17. The Government note with pleasure that the mark system is working satisfactorily. The number of persons who earned remission of their sentences under the system was 25 against 23 in the previous year, the highest amount of remission earned being 300 days, and the highest amount of gratuity obtained Rs. 5.

18. The aggregate and net cost of guarding and maintaining the prisoners during the year was Rs. 88,517 and Rs. 77,629-7-11 against Rs. 92,321 and Rs. 84,308 in the previous year and the gross and net cost per head was Rs. 97-14-5 and Rs. 94-3-6 as against Rs. 104-13-10 and Rs. 107-3-3 respectively in 1889. This is satisfactory and creditable to the Administration.

19. The gross cost per head however varies in different Jails as shown in the margin and the Inspector General is requested to explain the variations, which chiefly occur under "Rations."

*Proceedings of the Government of His Highness the Maharaja of Mysore,
(Judicial),—dated 5th May 1892.*

20. The communication promised by the Inspector General regarding the improvement of the present system of guarding Jails by Barr Sepoys, is awaited.

21. The total profits derived from Jail labor rose from Rs. 7,096 in the previous year to Rs. 12,226 and the average profit per head was Rs. 15-1-2 against Rs. 9-2-5 in 1889. This is stated to be due to large indents made for Government work.

22. The general health of the prisoners compares slightly unfavorably with that of the previous year. The number of admissions into Hospital both of convicts and of persons under-trial was 629 or 184 more than in the previous year and the daily average of sick men rose from 14.927 to 19.427 and the number of deaths from 18 to 20. Of the 20 deaths, 13 were in the Central Jail, 6 in the Mysore and 1 in the Shimoga Jail, and the majority of deaths were among prisoners between the ages 16 and 40. There were no deaths among civil or under-trial prisoners. Of the prisoners deceased, the health of 6 was, when they were admitted into the Jail, good, of 5, indifferent and of 9, bad.

23. The proportion of the total number of admissions into Hospitals and of deaths in and out of Hospitals to the total number of convicts was 19.16 and .63 as compared with 14.03 and .76 in 1889.

24. *Statement No. XV.*—It is satisfactory that no cases of cholera or small-pox occurred during the year.

25. The Government note with approval and satisfaction the interest the Inspector General takes in his work and are glad that he was able to inspect not only the Jails at Mysore and Bangalore but also many of the Lock-ups in Tumkur and Chitaldroog.

Letter No. 554, dated 5th March 1892, from the Senior Surgeon and Sanitary Commissioner with the Government of Mysore, bringing to notice that the Hospital Assistant and the Compounder attached to the Hospital at Nagapalli have been summoned by the Head Assistant Magistrate Pennakonda, to appear before the Sessions Court at Bellary on 7th March 1892 and that serious inconvenience would be caused by their absence which might extend over a period of about 14 days.

No. 3205-10—CIR. 35, DATED BANGALORE, 21ST MAY 1892.

ORDER THEREON.—The Government observe that the circumstances brought to the notice of the Government in the papers read above relate to the case of a Medical officer serving in Mysore being summoned to attend personally as a witness in a criminal trial before a Court outside the Province, and that ordinarily in such cases, it is the duty of the officer summoned to comply with the summons. When however by such compliance, serious inconvenience is likely to result such for instance as may necessitate the closing of the Hospital for any length of time and no temporary arrangement can conveniently be made to fill up the place of the Medical officer summoned, a representation to that effect, should through the proper channel, be made in time, so that the Magistrate or the Judge, issuing the summons, may be moved, either to issue a commission, under the provisions of Section 503, Criminal Procedure Code, for the examination of the officer or under Section 509, Criminal Procedure Code, to file in evidence his deposition, if already taken and attested by a Magistrate.

2. As regards the attendance of Medical witnesses before Courts in the Province, it is observed that the Chief Court has already issued Circular No. 70, dated 22nd July 1887, prescribing the procedure to be observed in such cases.

REVENUE.

*Proceedings of the Government of His Highness the Maharaja of Mysore,
(Revenue),—dated 14th May 1892.*

No. 2594-601—Cir. 24, DATED BANGALORE, 14TH MAY 1892.

ORDER.—Cases having come to the notice of Government in which lands have been acquired for Government without the previous sanction of Government, and without a previous settlement of the price that has to be paid, the Government resolve to issue the following instructions for the guidance of all officers concerned.

2. No land should be acquired by any Department except through the Deputy Commissioner of the District.

3. When a Municipality, or any Department of Government wishes to acquire land for any public purpose, it should intimate to the Deputy Commissioner the situation and area of the land required, the purpose for which it is required, and the cost it is prepared to pay. On the receipt of this intimation, the Deputy Commissioner should make the necessary enquiries, and if he considers that the land could be acquired within the sum named, he should submit the matter for the orders of Government, with full details as regards the description, boundaries and area of the land required, and the amount it is likely to cost, and state whether he proposes to acquire it by private negotiation, or under the Land Acquisition Act. On the receipt of the orders of Government thereon, he may proceed to acquire the land.

4. If the Deputy Commissioner considers that the land required cannot be had for the sum named by the Department requiring the land, he should intimate the same to the Department concerned, and await its further wishes in the matter.

5. As a rule, all lands required for Government purposes should be acquired under the Land Acquisition Act, and private negotiation should be resorted to only in cases in which there is not the slightest doubt about the title of the owner with whom the Deputy Commissioner purposes to deal.

6. Deputy Commissioners should under no circumstances take possession of the land before its price is settled or the provisions of the Land Acquisition Act are put in force.

7. Deputy Commissioners should submit at once a statement of lands, already acquired without the previous sanction of Government but which has not yet been paid for. They should settle their valuation, as soon as possible.

READ THE FOLLOWING PAPER:—

From the Superintendent, Mysore Revenue Survey, To the Chief Secretary to the Government of Mysore, No. 103, dated Bangalore, 4th May 1892.

I have the honor, with reference to Government Notification No. 125, dated 10th June 1891, laying down Revised Rules for the treatment of excesses of Chattrams, &c., inams, to solicit instructions as to how the cases of those inams which have already been settled under the late Chief Commissioner's Order No. 4831—316, dated 3rd October 1874, should be dealt with when the lands brought to khalsat or resumed to Government under that settlement have been taken up by different raiyats on regular kandyam.

*Proceedings of the Government of His Highness the Maharaja of Mysore,
(Revenue),—dated 19th May 1892.*

2. I would ask whether such lands, the present enjoyment by the inamdar being insufficient to make up the necessary extent under the later orders of 1891, are to have fresh lands substituted for them or what course is to be followed. Another alternative would be to make up the necessary complement out of the inamdar's own Government holdings should he have any.

No. 2872-81—Cir. 28, DATED BANGALORE, 19TH MAY 1892.

ORDER THEREON.—The excess area to which the inamdars whose inams have already been settled under the orders of 1874 may be entitled under the new rules of June 1891, must be made good by the grant of fresh lands. Where this arrangement is not possible, the case must be reported for the orders of Government who will consider whether a money grant cannot be made in lieu. The Pattas already granted may be cancelled if the Pattadars agree.

The Superintendent, Inam Settlements.
The Deputy Commissioners of Districts.

No. 3098-105—Cir. 31, DATED BANGALORE, 19TH MAY 1892.

ORDER.—A considerable number of petitions received by Government relate to the sale of lands held by unregistered holders for arrears of revenue. The Government have reason to think that there are still a large number of raiyatwari lands which are held by individuals whose names are not registered in the Revenue Accounts either because the holders have by ignorance not claimed separate registry in their names, or because the registered holders have raised frivolous objections to the registry being transferred to the actual possessors. In all such cases, it would be a great gain to the raiyats if the Deputy Commissioners would explain the rules on the subject to the parties concerned and see that the registries are made in the names of the actual possessors under paras 8 and 10 of Rule XXVI of the Revenue Rules. The Deputy Commissioners are therefore requested to make it a point at each Jamabandi to enquire how many such cases exist in each village, explain to the men concerned the rules on the subject and effect transfers of registry in the names of the persons actually in possession. They should explain in their Revenue Administration Report of 1892-93, how far effect has been given to the above instructions and how many cases still remain in which the registry still stands in the names of persons not actually in possession.

READ:—

The following Minute by the Honorable P. Chentsal Rao, C. I. E., Councillor to His Highness the Maharaja, dated 27th April 1892:—

Owing to the alteration of * khistbandi of Land Revenue in the Province, recently sanctioned by Government at the request of the Representative Assembly, in consequence of which nearly half the Revenue of each official year is made payable in the first two months of the following official year, it has become necessary to consider whether it is not desirable to alter the year which is now reckoned from 1st April to 31st March inclusive, and make it run from 1st July to 30th June inclusive, so that all the collections of the year may come to account within the year to which the Revenue relates.

2. On a careful consideration of all the circumstances, *pro* and *con*, I am of opinion that it is more desirable to alter the year and the reasons which have induced me to arrive at that conclusion are as follow:—

3. Naturally, no money not payable by the raiyat within the year should be shown in the Patta issued to him as the demand for the year and to arrive at a correct demand payable within the year, the assessment payable by the raiyat in the next year for lands held by him during the year in which the Patta has been granted will have to be deducted, and the sum payable on account of the previous year's demand added. This would give the exact amount payable by him during the year in which the Patta is granted, but if we do this, it will not be possible to apply the khistbandi rates to every raiyat on one and the same plan and the khistbandi of each raiyat will have to be calculated separately. For instance, if a raiyat extends his holding in any year from 50 to 100 acres, assessed, say at Rs. 100 and Rs. 300 respectively, the assessment payable by him in a Maidan Taluk in the year in which the holding has been extended will be half of Rs. 100 and half of Rs. 300, total Rs. 200, payable according to the following instalments:—

April	...	...	Rs. 25 or 2 annas in the rupee.
May	...	..	.. 25 or .. do do
February	...	...	.. 75 or 6 annas in the rupee.
March	...	...	.. 75 or .. do do
Total.....			200

The above rates do not correspond with the general rates of the khistbandi sanctioned, and it will not be possible to ascertain at a glance whether the amount payable at each instalment has been correctly calculated or not. Likewise, if a raiyat curtails his holding in any year, say from 100 to 25 acres assessed at 1 rupee per acre, the Patta will have to be issued for Rs. 62½—a sum much larger than the whole assessment of the holding, which will be an anomaly.

4. If the above process of determining the demand of each year be not adopted, and the Patta granted is only made to embrace the assessment of the land occupied during the year, the balance due on account of the previous year being regarded as an arrear, the arrears brought forward in the demand, collection and balance statement will have to be divided into (1) arrears on account of the year immediately preceding, and (2) arrears on account of other previous years, in order that a correct idea may be had as to how much of the arrears has become due and how much has not. This would increase clerical work considerably, not to speak of the impropriety of calling a sum not due an arrear.

5. The cultivation and the standing crops of lands in each year are not always completed and harvested within the end of March. The consequence is that lands cultivated in one year and harvested in the following year, are brought to the latter year's account, the Jamabandi of which takes place in the usual course after the crops have been gathered. This is calculated to lead to frauds, and to the omission of cultivated lands in the accounts of both the years. It is highly desirable that the year should embrace all the seasons of cultivation. As a rule, the cultivation and harvest of any one year are completed by the end of June.

6. It has not been found possible to complete the Jamabandi of each year within the end of March and Jamabandi is therefore often continued into the following year causing delay in the closing of accounts and the submission of annual reports. There will be no such inconvenience if the year closes on 30th June.

*Proceedings of the Government of His Highness the Maharaja of Mysore,
(Revenue),—dated 23rd May 1892.*

7. The revenues of the year are generally reported upon in this Province during Dasara or September. It will therefore be more useful to review the transactions of a year closing on 1st July than those of a year closing 3 months earlier.

8. A Revenue year ending 30th June which is the end of agricultural seasons in the Province will be more intelligible to the raiyats, than one ending in the middle of the seasons, i. e., 31st March.

9. For the foregoing reasons it seems to me to be highly desirable that the year, so far as Land Revenue collections are concerned, should be altered, and yet the question remains whether the Financial year should also be altered.

10. There is no absolute necessity for altering the Financial year since they concern only actual collections brought into the Treasury. In Madras the Revenue year ends on 30th June, while the financial year ends on 31st March. But it will be a great convenience if the Revenue and Financial years are one and the same. Very often the expenditure has to be compared with the collections of a whole year and it will be a great advantage if the expenditure and the collections are closed on one and the same date. The financial accounts will serve as a check on the revenue accounts and facilitate examination of accounts. Even in Madras, the existence of two separate years has been found inconvenient, and attempts have been made to reduce them into one year.

11. The abolition of the Financial year can cause no inconvenience whatever, as the difference between the Revenue and Financial years is only 3 months. It will always be possible to give the actuals of any 12 months and thus meet any requisition from the Government of India for figures for their official year ending 31st March.

12. Under these circumstances I consider that from 1st July 1892, the Official and Revenue years may be reckoned to run from 1st July to 30th June inclusive.

13. The current year 1891-92 will be one of 15 months and close on 30th June 1892. All Heads of Departments may be requested to submit Supplemental Budgets for the month of April, May and June 1892 and revised Budgets for the year ending 30th June 1893.

14. The immediate effect of the change will be a nominal diminution of Rs. 20,23,000 in the cash balance of the Province as the receipts to be added to the Revenue year on account of April, May and June amount to Rs. 3,19,000 while the expenditure on account of those months amounts to Rs. 23,42,000. But if the Financial year is retained, the nominal diminution of the cash balance will be still larger as the annual instalments transferred to the following official year amount to Rs. 38,60,000.

15. In framing supplemental Budgets for the months of April, May and June, the ordinary expenditure should be distinguished from the extraordinary expenditure on account of bad seasons and in the Budget for the year ending 30th June 1893, consideration should be paid to the realizable arrear demand that may be outstanding on 1st July 1892.

16. The change in the year will not interfere with the existing stipulations entered into with any contractors, or public or private bodies. They will be enforced as if there had been no change in the year.

17. In the Mysore Land Revenue Code of 1888, the words "Revenue year," so far as they have been used in the Regulation, are defined to mean the period running from and exclusive of 31st March of one calendar year until and inclusive of the 31st March in the next calendar year. This definition in no way affects the decision arrived at by Government for closing the Revenue and Financial year on 30th June. The Code gives ample power to Government to fix the khistbandi as they please and there is no prohibition in the Regulation against the closing of Government accounts on any date they may determine. It may however be convenient to define the year for the purpose of Regulation also as one ending 30th June and this matter may be separately disposed of. Meanwhile in Rule 26 of the Land Revenue Rules, the words "the 31st July occurring within the period for which the Patta is issued and for which the relinquishment is intended" may be substituted for "the 30th April of the official year for which the relinquishment is intended."

18. Para 15 of Rule XXVI of the Land Revenue Rules may be cancelled as unnecessary under the new arrangement.

The following Notification No. 401, dated 12th January 1892.

In continuation of Notification Camp No. 384—92, dated 27th October 1891, directing an alteration of the khists for the payment of Land Revenue, it is hereby ordered that all village accounts should hereafter begin on 1st July in any year and on 30th June in the following year.

2. The current Revenue year's Village accounts should include the period from 1st April 1891 to 30th June 1892.

No. 3211-50—Cir. 36, DATED BANGALORE, 23RD MAY 1892.

ORDER THEREON.—After careful consideration, the Government of His Highness the Maharaja are of opinion that the balance of advantage is distinctly in favor of adopting the same year for Revenue and Financial purposes and they accordingly resolve that, from 1st July 1892, the Official and Revenue year should be reckoned to run from 1st July to 30th June, both dates inclusive. A notification will be issued accordingly.

2. The current year 1891-92 will be one of 15 months and close on 30th June 1892. All Heads of Departments are requested to submit supplemental Budgets for the months of April, May and June 1892 and revised Budgets for the year ending 30th June 1893.

3. In framing supplemental Budgets for the months of April, May and June 1892, the ordinary expenditure should be distinguished from the extra ordinary expenditure on account of bad seasons, and in preparing the Budget for the year ending 30th June 1893, consideration should be paid to the realizable arrear demand that may be outstanding on the 1st July 1892.

4. The change in the year will not interfere with the existing stipulation entered into with any contractors or public or private bodies, which will all be enforced as if there had been no change in the year.

5. The needed action will be immediately taken in the Legislative Department for amending the Mysore Land Revenue Regulation by defining "Revenue year" to mean the period from and exclusive of 30th June in one calendar year to and inclusive of 30th June in the next calendar year and by making the Revenue year 1891-92 consist of 15 months from 1st April 1891 to 30th June 1892, both days inclusive. After alteration of the definition of "Revenue year" as above, para 1 of Section XXVI of the Land Revenue Rules should be altered as follows:—

"Notice of absolute relinquishment in any District shall be given before the 30th April of the current Revenue year, from the close of which the relinquishment is to have effect."

And para 15 of the same Section should be omitted as no longer necessary

No 3823-30—Cir. 55, DATED BANGALORE, 26TH MAY 1892.

ORDER.—The Government understand that the practice of resuming lands sold for arrears of revenue when no bidders are forthcoming still continues in some places. Such a practice wherever it exists, must be put a stop to. When no bidders are forthcoming, the officer conducting the sale should *invariably* bid on behalf of Government and buy it for the upset price under para 9 of Rule 41 of the Revenue Rules, and the land may then be dealt with under para 1, Rule XX. The price for which the land is bought in, will be credited to the arrear due, and debited to "Purchase of land—Land Revenue Miscellaneous." Such a procedure may not be strictly necessary, as the land is declared forfeited before it is sold, but seems to be desirable as it is sold for the benefit of the defaulter.

NO. 1801—L. 274, DATED BANGALORE, 2ND MAY 1892.

ORDER THEREON.—A hotel is not a shop in the strict sense of the word and it is not desirable that the keeping of hotels, which are a source of great convenience to travellers, should be discouraged by subjecting them to taxation. The Government therefore direct that the shop tax levied in the case under notice and in similar cases during 1891-92 be refunded to the parties and that no similar tax be charged in the future. The house tax will of course continue to be collected.

NO. 1781-9—L. 272, DATED BANGALORE, 2ND MAY 1892.

As it is absolutely necessary for Government to know the balances in favor of each Municipality and Local Fund Circle at the end of each month, the Presidents of the Municipalities and District Fund Boards are requested to submit to this office monthly statements in the accompanying Forms 3 and 4 commencing from April 1892 so as to reach this office not later than the 20th of the month following that to which they relate.

2. The Comptroller is also requested to forward as early as practicable to this office as well as the Presidents of the several Municipalities and Local Fund Boards statements showing the balance on 1st April 1892, at the credit of the Municipal and District Funds in view to the information being embodied in the statements for April 1892.

3. To secure correspondence between the Treasury accounts and those of the District officers, no cheques should ordinarily be issued after the 25th of each month so that no cheques may remain uncashed at the end of the month and all adjustments made in the Comptroller's Office should be communicated to the Deputy Commissioners as soon as they are made in view to their being incorporated in the monthly statements.

Docket from the Deputy Commissioner of the Bangalore District, dated 21st April 1892, No. 26, requesting that the rule of lapse may not be applied to the grants made from Local Funds General on account of drinking water wells during 1891-92 as in the case of all sanctions and grants hitherto made on account of the present unfavorable season, which have been directed in Government Proceedings dated 5th April 1892, No. D 370, to be continued without regard to the rule of lapse.

No. 1849-50—L. 279, DATED BANGALORE, 3RD MAY 1892.

ORDER THEREON.—The Government Proceedings dated 5th April 1892, No. D. 310, quoted in the above applies only to the special grants made from *general revenues* on account of the present unfavorable state of the season and not to the allotments made from Local Funds General or from District Funds, to which, as has already been stated, the rule of the lapse applies as usual.

The Government, however, would be glad to sanction further allotments from Local Funds General to the extent of the difference between the sums sanctioned for 1891-92 and the sums actually expended, if the state of funds admits it. The Comptroller is requested to forward to this office as soon as possible a statement showing the actual balance on 1st April 1892 and also a statement showing the sums sanctioned for special works and the sums actually expended and the balance in the case of each District.

Meanwhile the sums expended during 1892-93 should not exceed the grants made for 1892-93 in Government Proceedings dated 2nd March 1892, No. 13717-26—L. 1417.

Docket from the Deputy Commissioner of the Kadar District, dated 9th April 1892, No. 16, submitting a supplemental Budget Estimates of expenditure under District Funds for the year 1892-93.

No. 1874-85—L. 292, DATED BANGALORE, 3RD MAY 1892.

ORDER THEREON.—The estimated expenditure under 'Civil Charges' already sanctioned amounted to Rs. \*9,257. The following 4 items are proposed to be added raising the estimate to Rs. 10,672:—

\* Including Rs. 53 transferred from A. Public Works II Re-pairs.

(Financial),—dated 3rd May 1892.*

2. *Item 1. Additional Statistical Clerk.*—Owing to the increase of correspondence in the Local Fund Branch of the Deputy Commissioner's office, which is more than what the existing Clerk can look after, it is proposed to employ an additional Clerk on Rs. 15 per mensem as has been allowed for the Districts of Bangalore and Shimoga. The proposal is sanctioned temporarily. It is not necessary that the whole work connected with the District Funds should be done by a separate Department. The whole work of a District, whether it relates to District Funds or other Departments must be done by the general establishment and a Special Clerk is allowed only to help the general establishment.

The Deputy Commissioner is requested to consider and report when he submits next year's Budget whether the retention of the Clerk now sanctioned is absolutely necessary and whether other arrangements could not be made so as to dispense with his services.

3. *Item 2.*—The Deputy Commissioner states that of the 2 Midwives now required for the District, one has already been appointed for the Taluks of Tarikere and Kadur and that the Senior Surgeon has been written to as regards the appointment of a Midwife for the Malnad Taluks. A sum of Rs. 480 is accordingly provided to meet the pay of both the Midwives. The proposal is approved and the provision sanctioned.

4. *Item 3. Miscellaneous. Purchase of Amrut Mahal Bulls.*—According to the intimation recently received from the Officer in charge of the Amrut Mahal Department, the sum that has to be entered under this head is Rs. 805 as per particulars noted in the margin and not Rs. 150, as already sanctioned. The Deputy Commissioner therefore proposes to enhance the estimate already sanctioned by Rs. 655. The recommendation is approved. The probable amount that may be realized by the levy of

Letter from the Comptroller dated 14th April 1892, No. 255, suggesting that, as the Deputy Commissioners were required to remit to Treasury on 31st March 1892 all unexpended balances out of the grants made from District Funds or Local Funds General for the execution of useful works, and to draw the same if necessary on the following day, supplemental Budgets may be called for on account of such works as were commenced but not completed in 1891-92.

**No. 1893-902—L. 295, DATED BANGALORE, 3RD MAY 1892.**

**ORDER THEREON.**—The Deputy Commissioners of the Districts are requested to submit statements showing the sums specially sanctioned from Local Funds General and District Funds for 1891-92, the sums actually spent therefrom, and the sums required for 1892-93 and the purposes for which they are needed, when due orders will be issued. Meanwhile all sums expended on sanctioned works should be debited to the grants made for 1892-93.

2. The grant from Local Funds General is chiefly intended for the excavation of drinking water wells and construction of mantapams and chavadis useful to travellers and villagers and not for bridges and tunnels, which must ordinarily be constructed from District Funds. The Government therefore strike out the provision of Rs. 3,000 made for bridges and tunnels. The other works may be taken up. The Government presume that the works will all be undertaken by the Revenue Department. If any are to be taken up by the Public Works Department, a list thereof should be submitted in view to funds being placed at its disposal.

**ORDER THEREON.**—In the case of schools maintained from Municipal funds, all applications for increase of pay to teachers, &c., must be submitted to Government in the Municipal and Local Fund Department through the Education Secretary, who will send it on to Government for orders with his opinion. In the case of each application, there are two circumstances to be considered—one the reasonableness of the increase proposed and the other whether the Municipality can afford to make the grant and the funds admit of it. The former point alone has to be considered by the Education Secretary and he should not therefore sanction the increase without reference to Government in the Municipal Department. The application for increase must always point out the source from which the charge can be met. If there is no provision in the budget, a supplemental budget should accompany the application.

In the case under notice, there are apparently funds available and a supplemental budget should be forwarded. The Government confirm the sanction accorded by the Education Secretary.

Letter No. 920—675-7, dated 23rd March 1892, from the 1st Assistant to the Resident in Mysore.

The question of the application of the new or the old rates of contribution for pension to the officials of the Bombay Presidency employed in the Revenue Survey Department of the Mysore State has engaged the attention of Government for some time past and I am now directed to communicate the following instructions of the Government of India:—

- (a). The contribution of the officers in question should be fixed, and their pension sanctioned by the Government of Bombay.
- (b). As regards the incidence of the cost of the pensions, the pensions would under the rules now in force be divided between the Bombay Government (for the early service before transfer to Mysore), the Mysore State (for the service in Mysore prior to October 1882), and the Government of India (for the service from October 1882). From 1st April 1892, however, the orders requiring division of the charge between Imperial and Bombay Provincial revenues will cease to have force; and the portion of the pensions payable from British Indian revenues will from that date be borne by the Provincial revenues of the Province in which the pensions are paid.

2. The Government of Bombay have directed that the contribution of the six officials

1. Balaji Malhar Nalik.
2. Channabasappa Jodi Basavappa Khundapen.
3. Jango Malhar Nalik.
4. Jango Sivaji Joshi.
5. Ramachandra Nayana Satavalli.
6. Ramachandra Krishna Belgam.

named in the margin should be levied at the new rates on the net salaries drawn by them on the date on which the new foreign service rules came into force, and that the increases of salaries given in any case since that date should not count towards pension. I am to request that the necessary instructions may be issued to the Comptroller of Mysore for the payment of the contribution in accordance with the above instructions in communication with the Accountant General at Madras.

No. 2571-2—16, DATED BANGALORE, 14TH MAY 1892.

**ORDER THEREON.**—Communicated to the Superintendent, Revenue Survey, and Comptroller in Mysore for information and guidance.

2. With reference to para 2 of the Assistant Resident's letter, the Comptroller is requested to arrange for the payment of the contribution on behalf of the six Survey officials named therein at the new rates on the net salaries drawn by them on 7th January 1889, the date on which the new foreign service rules came into force, *vide*, Article 810 (a) of the Civil Service Regulations.

NOTIFICATION

The Government of His Highness the Maharaja of Mysore are pleased to sanction the following addition to Rule 21 of the Mysore State Life Insurance Rules published under Notification No. 365, dated 27th October 1891:—

"If a policy is not claimed from the Treasury within a month from the date of its receipt

No. 2518-26—L. 351, DATED BANGALORE, 16TH MAY 1892.

ORDER.—Government learn that owing to some misunderstanding of the ruling that all Budget grants under Municipal and Local Funds should lapse at the end of the year to which they relate, the construction of some of the wells commenced in 1891-92, but not completed within the year has been stopped. If so, the action taken is not right. It was never the intention of Government to stop the completion of works already undertaken. All that the Government wanted was that the cost of the uncompleted works should be met from the grant made for 1892-93 and not from the grant of 1891-92. For instance, if Rs. 15,000 were sanctioned for 1891-92 and estimates sanctioned for 4 works A, B, C, D each costing Rs. 3,750 and one of the works, say D, was left incomplete, and there is a sanction of Rs. 12,000 for 1892-93, the works proposed to be undertaken from that grant being 3, i. e., E, F and G, costing Rs. 4,000 each, the Deputy Commissioner is at liberty to go on with D, stopping in lieu any of the works E, F and G. If the Deputy Commissioner considers that E, F and G as well as D are all urgently required, he may send a Supplemental Budget for the addition required to the grant of Rs. 12,000 made for 1892-93, but he should under no circumstance stop the work commenced in 1891-92, but left uncompleted within that year.

Letter No. 140, dated 26th December 1891, from the Officer in charge of the Amrut Mahal Department.

---

No. 2863-71—Cir. 27, DATED BANGALORE, 19TH MAY 1892.

ORDER THEREON.—In the first of the letters above cited, the Deputy Commissioner brings to notice that, as the price of the Amrut Mahal bulls varies from Rs. 100 to Rs. 200, the raiyats are not likely to buy those priced at Rs. 100 on account of their inferiority, while the price put upon the best available ones is prohibitive, and suggests the desirability of fixing on each bull a uniform price of Rs. 50 payable by the raiyats, as in the case of the bulls sold to the Commissariat Department, an equal sum being also paid out of Local Funds.

2. The Officer in charge of the Amrut Mahal Department to whom a copy of the above letter was forwarded for opinion, states that if the steers selected by him for the Districts are offered for sale, they would be eagerly purchased at Rs. 200 each, but if the Government think it desirable, the prices could be reduced from Rs. 100 to 200 to Rs. 100 to 175, at which rate they would cost the raiyat between Rs. 50 to Rs. 87½ each.

3. The Government consider that as the raiyats have to pay only half the price of the bulls purchased by them, there can be no hardship in fixing the price of the animals at prices at which they would be purchased for ordinary use. The Officer in charge of the Amrut Mahal Department will, however, be requested to bestow every consideration in fixing on each animal only such price as could be most readily realized in a private sale.

No. 2972-80—Cir. 29, DATED 21ST MAY 1892.

ORDER.—In continuation of Government Proceedings, dated 4th May 1892, No. D. 414, Deputy Commissioners of the several Districts are requested to submit a report, as soon as possible, of the advances made up to date in their Districts, accompanied by a detailed statement showing—

- (1) the number of wells in each village for which advances have been made,
- (2) the area each well is capable of irrigating when completed,
- (3) the amount of advance promised,
- (4) the instalment of advance actually made,
- (5) the date on which it was made,
- (6) the name of the person to whom it was made, and
- (7) the probable date on which the second payment will become due and its amount.

*Proceedings of the Government of His Highness the Maharaja of Mysore,  
(Financial),—dated 23rd May 1892.*

2. All advances should in future be made by the Special Officer Mr. B. G. Krishnaiengar in communication with the Deputy Commissioners concerned. The Deputy Commissioners of the several Districts are requested to correspond with Mr. Krishnaiengar on the subject direct and to attend to his orders promptly.

3. Mr. Krishnaiengar may order all second advances on his own responsibility. In the case of new wells, he must consult the Deputy Commissioners concerned before making the advances and obtain their permission. If he differs from the Deputy Commissioners, the matter should be referred for the orders of Government.

4. Mr. Krishnaiengar is requested to visit the several Districts, receive applications for advances, and determine the places where the advances can be most advantageously made during 1892-93.

5. On the receipt of the report called for in para 1 *supra*, the Government will determine the amount to be advanced in each District during 1892-93.

6. Mr. Krishnaiengar should continue to send his fortnightly diaries.

No. 3052-3—L. 422, DATED 23RD MAY 1892.

**ORDER THEREON.**—The works sanctioned in 1891-92 but not commenced or left uncompleted should be carried out in 1892-93, and the cost met from the sum of Rs. 15,000 sanctioned for 1892-93 from Local Fund General in Government Proceedings dated 2nd March 1892, No. 13717-26—L. 1417. If more money is required for 1892-93, the necessity for the same should be explained and a statement of the wells to be excavated in 1892-93 should be submitted. Government are not prepared to grant more than Rs. 15,000 for 1892-93 for all wells including those left uncompleted in 1891-92, unless the Deputy Commissioner shows that an additional sum is urgently required in the interests of the people.

ORDER.—It has come to the notice of Government that sums deposited by merchants as security for the regular payment of octroi duties, and such other purposes are in some cases kept with the Municipal authorities without their being sent to the Treasury and brought to account. This is irregular. In future, every deposit or any money that comes into the hands of Municipal or other authorities for any purpose, must be forthwith sent to the Treasury. When the amount has to be refunded, or credited in the accounts, to the proper head, it must be done so by a cheque.

2. Any sums now remaining with the Municipal or other authorities must be forthwith remitted to the Treasury.

3. No expenditure should be incurred without being shown in the accounts. For instance, if a compensation of Rs. 100 is due to a man, he owing to Government, say Rs. 50 for any Government land made over to him, the entire amount of Rs. 100 should be shown as disbursement, and Rs. 50 as receipt. At present it seems to be the practice to show only Rs. 50 as disbursement. This procedure is not correct.

ORDER.—With reference to the Notification sanctioning the extension of the current official year up to the 30th of June 1892, the following instructions are issued for the guidance of Deputy Commissioners and Heads of Departments.

2. The Supplemental Budgets called for for the months of April, May and June need only show such sums as are required in excess of the sanctioned Budgets for 1891-92 ending 31st March 1892. For instance if Rs. 10,000 have been sanctioned for any class of works for the year 1891-92, ending 31st March 1892, of which only Rs. 8,000 have been spent up to that date and Rs. 3,000 are required to be spent during the three months of April, May and June, the Supplemental Budget need only provide for Rs. 1,000 being the difference between the sum of Rs. 10,000 already sanctioned and the sum of Rs. 11,000 found to be required for the whole period of 15 months ending 30th June 1892.

3. If the Budgets already sanctioned for 1892-93 for the year ending 31st March 1893 are sufficient for the new official year ending 30th June 1893, no new estimates need be forwarded and the Budgets already sanctioned for the year ending 31st March 1893, may be taken as the Budget for the year ending 30th June 1893. But if owing to any reasons more funds are required, a Supplemental Budget for such additional funds should be forwarded with explanations. Where such Supplemental Budgets are not required, the fact should be reported.

4. Works already sanctioned or provided for in the Budget may be undertaken without fresh sanction, subject of course to the rules regarding the submission of estimates and notifications of sanction; but if owing to the change of the year any new works, not already sanctioned or provided for in the Budgets, have to be undertaken during 1892-93 ending 30th June 1893, lists of such works alone should be forwarded for approval.

5. The instructions above laid down will dispose of to a large extent, the applications received from Districts for the appropriation of funds which lapsed on 31st March 1892. All works remaining uncompleted on 30th June 1892 may be executed during 1892-93 ending 30th June 1893 from the funds sanctioned for the year ending 30th June 1893.

No. 3559-66—Cir. 46, DATED BANGALORE, 27TH MAY 1892.

**ORDER.**—The Government of His Highness the Maharaja direct that, in future, every order on the Treasury for disbursement of money issued by an Amildar should bear the initials of the Taluk Sheristadar or, in his absence, of the Head Gumasta. If the order does not bear his initials, the Comptroller must refuse to admit it as a voucher.

2. If the Amildar overrules any objection of the Taluk Sheristadar or the Head Gumasta and either of these is not satisfied with the order of the Amildar, the matter should be brought to the notice of the Deputy Commissioner.

3. All disbursement orders issued by a Deputy Commissioner should bear the initials of his Sheristadar. If the latter objects and the Deputy Commissioner overrules him, the Sheristadar must record his objection and submit it to the Deputy Commissioner who may send it or not to Government for orders. The Deputy Commissioner's signature is a sufficient authority for the Comptroller to pass, unless the rules require Government sanction.

Docket from the Deputy Commissioner of the Bangalore District, dated 7th May 1892. No. 137, submitting a statement of works to be undertaken out of the grant of Rs. 15,000 sanctioned in Government Proceedings, dated 2nd March 1892. No. 13717-26—L. 1417, from Local Funds General together with a copy of Proceedings of the District Fund Board, dated 5th May 1892.

No. 3707-9—L. 480, DATED BANGALORE, 30TH MAY 1892.

ORDER THEREON.—The list submitted does not include works sanctioned for 1891-92, but left uncommenced or uncompleted. If funds are available, the Government have no objection to the execution of the works proposed except the following:—

1. *Tunnel on the road leading to Ramgiri Hill, Rs. 600.*—The grant from Local Funds General is not intended for such works. The work must be included in the ordinary District Fund Budget.

2. *Repairing Anekal tank feeder, Rs. 600.*—The tank feeder is stated to be at present in disrepair and water is likely to be diverted from the tank and rush through the village and damage it. The Deputy Commissioner states that the feeder, if repaired, will secure the flow of water into the tank. It is not stated whether the water of the tank, whose feeder is proposed to be repaired, is exclusively used for drinking purposes or for irrigating lands also; in the latter case, the cost of the work should be met from Provincial Funds.

3. *Repairing Puttappa's well, Rs. 150.*—It is not stated whether the well is private property and if so whether the owner or owners have agreed to throw open the well at all times for the use of the public. The work should only be executed if there are no private claims.

**DODBALLAPUR TALUK.**

The only fresh water well in the village is on the other side of the channel, villagers find it very difficult to fetch water during the rainy season, and the bridge is therefore necessary.

This is a large and important village. A large weekly fair is held here. The mantap has cost Rs. 1,000. It could be well preserved and utilized for useful purposes, if converted into a Musafarkhana.

There is a large temple close by. A car festival is also held here on a large scale every year, when thousands of people assemble for the jatra. Cattle also are brought for sale on a small scale. The well will also be useful for travellers passing on the Kolar-Sompur road. There is no well within a radius of two or three miles.

This work may cost more than the estimate. The cost may be collected from the villages of the taluk.

| Bangalore. | Dodballapur. | Dargapura ...    | Repairing the katte and the well.             | This katte and the well are near the Taluk Cutcherry and out of the Municipal limits. The restoration of the well will prove useful to the many raiyats who attend the Cutcherry. And if the six acres of land, close by, are planted with trees so as to form a small tope, and a small shed for the use of the several officers visiting the place, be also erected, the work will prove of immense advantage, considering that the Travellers' Bungalow is situated beyond a mile from the town. | 300               | ...                            | The Board think this a very useful work, and likely to serve many people | Sanctioned.          | 300                              |

**No. 3749-57—CIR. 53, DATED BANGALORE, 31ST MAY 1892.**

**ORDER.**—Adverting to para 6 of Government Proceedings Camp No. 950—60, dated 16th September 1885, the Government of His Highness the Maharaja direct that the Pôtgi allowance due to Village officers shall, in future, *without exception*, be disbursed at the Head-quarters of the Taluk, and that it shall not be drawn by Shekdars or other officers to be disbursed in the villages when they visit them. The Comptroller will see that no payment which is not supported by the receipt of the person actually entitled to receive it, is admitted in the Treasuries.

2. A permanent order should be issued by the Deputy Commissioner to each Taluk in the accompanying form showing the salaries payable to each Village officer. It should be kept in a book form, a page being allotted to each village, and each payment should be entered in it with the date of payment or the date and number of the cheque issued and initialled by the Taluk Sheristadar. A copy of the permanent order may be given to the officer concerned, and if he produces it, the payment shall be noted in his copy also. A separate receipt, however, should be obtained from him and forwarded to the Comptroller, as voucher for audit.

3. Arrears for a period exceeding 12 months should not be paid without the sanction of the Deputy Commissioner, or of more than 24 months without the sanction of Government.

No. 3758-65—Cip. 54, DATED BANGALORE, 31ST MAY 1892.

ORDER.—The travelling allowance bills of the Deputy and Assistant Commissioners including the Sub-Division Officers and Amildars of Taluks are now being submitted to the Dewan's Office for countersignature under Article 610 of the Mysore Service Regulations. As the allowance is drawn under fixed rules, the Government consider that the bills of Assistant Commissioners and Sub-Division Officers and Amildars may be countersigned by the Deputy Commissioners to whom they are respectively subordinate and transmitted to the Comptroller for audit, Deputy Commissioners' bills alone being submitted to the Dewan's Office for countersignature.

2. Cases not covered by the rules and those requiring Government sanction under the Regulations will be submitted to Government for orders as well as special cases deserving the notice of Government under Sections 614 and 616.

Docket from the Deputy Commissioner, Mysore District. dated 25th April 1892. No. 36.

No. 1886—L. 293, DATED BANGALORE, 3RD MAY 1892.

ORDER THEREON.—Petitioners say that they used their carts for non-agricultural purposes during 1891-92 for want of agricultural occupations during the year in consequence of bad seasons. The Deputy Commissioner's letter does not clearly show whether this is a fact, or whether they have been habitually using them for agricultural as well as non-agricultural purposes. The Government are of opinion that agriculturists who maintain carts for carrying manure and the produce of their lands should not be taxed simply because they occasionally hire them when they are not required for agricultural purposes. It is only persons who live by hiring their carts that ought to be taxed. The Municipal Board should revise their Proceedings with reference to the above views.

READ THE FOLLOWING PAPER :—

Annual Report on the Administration of the Mysore Government Press and the Gazette Office for the year 1890-91.

No. 2397-9—210, DATED BANGALORE, 10TH MAY 1892.

**REVIEW THEREON.**—The value of printing work done for the Government as well as Municipalities amounted to Rs. 63,560—3—4 as against Rs. 55,678—1—0 of the previous year, showing an increase of Rs. 7,882—2—4. The cash realizations also showed an increase, though slight, from Rs. 1,986—14—6 in the previous year to Rs. 2,065—6—6, of which the chief item was the proceeds from the sale of the copies of the Mysore Gazette and the advertisement receipts. The total value of work under all the heads amounted therefore to Rs. 65,625—9—10 against Rs. 57,664—15—6, giving a net increase of Rs. 7,960—10—4. The increase is chiefly in the work done for Government which is due to a larger number of Administration Reports, State papers, &c., printed during the year, as well as to the increase in the bulk of the monthly volume of the Government Proceedings, in which a new section entitled the "Decisions of Government on Revenue Appeals" has been newly added, to the publication of a large number of school books, and to the unusual work which the Press was called upon to do for the Census Department—work, which the Superintendent values at Rs. 6,907—2—0. In consequence of the opening of the Bangalore-Hindupur line by the State, there was also a heavy demand on the Press for a number of Railway forms, &c.

2. There was a decrease in the quantity of work turned out for the Archaeological, Police, Forest and other Departments. As to the Archaeological Department, the Superintendent remarks that "no work of the Archaeological Department was issued complete and therefore the value of work was not included." This remark is not intelligible. It is not clear, why, if no complete work was issued, the work so far as it was done should not have been appraised and included in the returns. The annual cost of the special establishment sanctioned for Archaeological work is shown as Rs. 2,177—2—6 and it is important that the Government should know whether there is money's worth of work for the establishment to do and whether so much work has been turned out or not. The Superintendent is requested to submit a statement showing the quantity and value of work done by the establishment, since it was entertained and during the year under review.

3. While on the subject of Archaeology it may be observed that in their Proceedings, dated 17th December 1889, Camp No. 877-78, the Government expected that the Archaeological Survey would be completed in 1891 or 1892, but it is not known how much of it has been completed, how much still remains to be done and how long it will take to finish it. Mr. Rice will be requested to report how long he is likely to be employed on the work, whether the temporary establishments both for the Press as well as his Office at its present sanctioned strength is necessary and how long they should be continued and at what strength.

4. The total expenditure under all the heads amounted to Rs. 39,261—2—2 as against Rs. 37,984—11—0 in the previous year, showing a net increase of Rs. 1,276—7—2 and the increase was chiefly due to the purchase of materials, type, numbering machines, a wire stitching machine, &c., for the use of the Branch Press at Mysore, as well as to the increase of the Archaeological establishment sanctioned in the latter part of the year. There was a decrease of Rs. 647—4—5 under the head Piece Work (Rs. 17,508—4—11 against Rs. 18,156—3—4 in the previous year) and the Superintendent attributes it to the revised scale of wages adopted by him after reference to the rates obtaining at the Madras Government Press. The Government, while noticing with satisfaction the

*Proceedings of the Government of His Highness the Maharaja of Mysore,  
(General),—dated 10th May 1892.*

reduction of rates and the decrease in the total amount of expenditure on account of piece work, desire to be furnished with fuller particulars as to the old rates in force, the rates obtaining in Madras and the rates fixed by the Superintendent.

5. Financially, the operations of the Department during the year under review were successful, as they exhibit the highest figures on record during the past 9 years both as to the value of work executed and as to the net saving effected to Government, *viz.*, Rs. 63,409—13—4 and Rs. 26,364—7—8 respectively.

6. The Branch Press at Mysore turned out work valued at Rs. \*2,491—

| Total.. ...                                | *1,605 | 12 | 9  |

10—6. The total cost of the Branch Press was Rs. \*1,605—12—9, showing net saving or profit of Rs. 885—13—9. The Press has since been taken charge of by Government.

7. The Superintendent still complains of the waste of time, labor and money caused by the careless manner in which papers to be printed are sent to the Press by different Departments, but the Government hope that the instructions issued by them in Memorandum No. 5650-87—Cir. 209, dated 10th August 1891, will have the effect of removing the inconvenience complained of.

8. The Superintendent of the Government Press is also Ex-officio Curator of Government Library and in such capacity he registered, under Act XXV of 1867, 202 books as against 128 in the previous year. Under the existing Law, it is obligatory on the part of the Government to purchase 3 copies of the books registered and the expenditure incurred in the purchases so made amounted to Rs. 253—5—0 against Rs. 131—2—6 in the previous year. The question of amending the Law so as to relieve the Government from the obligation of purchasing 3 copies of each of the books registered is under the consideration of the Legislative Department and the Legislative Secretary is requested to arrange for the early disposal of the reference made so far back as January 1891.

9. The receipts for securing copy-rights under Act XX of 1847 amounted to Rs. 90 as against 74 in 1889-90.

10. On the whole, the working of the Press during 1890-91 was satisfactory, and the Government are glad that the Superintendent takes interest in his work and does it as economically as possible.

ORDER THEREON.—Of the 4 enclosures received with the above, 3 are reports from Hospital Assistants on cholera duty and the other a copy of the letter written by the Civil Surgeon to the address of the President of the Mysore Municipality on the subject of the sanitary arrangements to be made in the City of Mysore for preventing cholera.

2. With reference to the 1st of the Cholera reports, the attention of the Deputy Commissioners of Districts is drawn to the sanitary rules published at pages 177—179 of the Revenue Manual of 1886 and they are requested to give effect to the rules as far as possible. The Deputy Commissioner of the Tumkur District will see whether a new well cannot be excavated at Nittur or the only existing old well said to have dried up, deepened.

3. The President of the Mysore Municipality is requested to take early action on the suggestions made by the Civil Surgeon.

## RESOLUTION.

With the object of reducing the bulk and number of the annual reports which are submitted to the Government of India, it was decided in Home Department Resolution No.  $\frac{28}{1578-1593}$ , dated the 15th July 1887, that, among others, the report regarding the destruction of wild animals and venomous snakes should be submitted triennially, and that in the intermediate years it would be sufficient to send statistics with brief notes. In consequence of this decision the Government of India issued no general Resolutions on the statistics for the years 1887 and 1888 recording the mortality from wild animals and snakes, but merely published them for general information. But recently, in view of the great mortality from snake-bite, the Secretary of State has expressed a wish that the annual reviews of the Government of India should be continued, and has inquired whether, in the opinion of the Governor General in Council, any further measures can be taken to lessen the mortality caused by venomous snakes. In the Circular letter of 8th March 1890, Local Governments and Administrations were asked to give in their reports for 1889 a brief account of the measures taken in recent years to reduce the mortality from snake-bite, and to state whether any further special action is necessary or possible.

2. The following abstract shows the mortality caused by wild animals and venomous snakes during 1887, 1888 and 1889, and the expenditure incurred in destroying them:—

3. The mortality in 1889, both of human being and cattle, was greater than in 1886, the last year the statistics for which were reviewed: it was greater of human beings than in 1887 or 1888, but less of cattle than in 1888. The number of wild beasts destroyed in 1889 was, except in the case of leopards, less than in 1886; it was considerably less in the case of tigers than in any of the previous three years, and much less in the case of wolves, the animals which are next to tigers most destructive of human life. Fewer animals of every kind, except hyenas, which are the least harmful of the larger carnivora, were killed in 1889 than in 1888. While, however, 417,596 snakes only were reported to have been killed in 1886, the figure in 1887 was 511,861, in 1888, 571,381, and in 1889, 577,770.

The number of licenses issued under the Indian Arms Act, 1878, for the purposes of destruction of wild animals or protection of crops, was shown in 1886 as 86,859, in 1887 as 71,423, in 1888 as 60,111, and in 1889 as 61,083, but the returns for the earlier of these years are not reliable.

4. A survey of the statistics from 1879 to 1889 shows that the number of human beings killed by wild animals has, during that period, amounted to 29,936, or on an average to 2,720 annually. The average number killed in each year in each Province was as follows:—

|                                  |     |     |     |     |     |       |

During the same period Rs. 14,56,994 have been expended in rewards for the destruction of the following wild animals:—

|          |     |     |     |     |     |        |
|----------|-----|-----|-----|-----|-----|--------|

| Wolves   | ... | ... | ... | ... | ... | 61,404 |
| Hyenas   | ... | ... | ... | ... | ... | 15,976 |

In spite of this large destruction of the more dangerous wild animals, the number of persons reported to have been killed by animals in 1889 (2,724) is almost exactly the average of the previous ten years, while the number of cattle reported to have been killed in that year (65,757) is considerably above the recorded average for the previous ten years (52,247). While, however, the aggregate number of persons killed by wild animals appears when considered by itself to be large, it must be remembered that the proportion of the population who meet their deaths in this manner is relatively very small. This is illustrated by the following figures, which show for each Province the rate per mille of the population of deaths caused by injuries from wild animals in 1889:—

|                                  |     |     |     |     |     |     |

If the mortality be calculated on the population of British India recorded in 1881, it will be found that one person out of every 72,882 of the population was killed by wild animals during 1889.

5. The mortality from snake-bite is far greater. Large numbers of the deaths reported to have resulted from this cause occur at a distance from the district head-quarters under circumstances which render it impossible to feel certainty that the cause of death has been correctly reported; but even when allowance has been made for deaths incorrectly or improperly attributed to snake-bite, there remains a large residuum of cases undoubtedly due to it. The aggregate mortality recorded during the last eleven years in British India is 219,367, and the average mortality a year almost exactly 20,000. The average mortality between 1879 and 1888 compares thus in each Province with that for 1889:—

The recorded mortality from snake-bite thus tends to increase, though it is uncertain how far the increase is due merely to better reporting in recent years, it is most serious in Bengal and the North-Western Provinces and Oudh.

6. Continued attention has for many years past been directed by the Government of India and Local Governments to devising measures for reducing mortality from snake-bite, and various plans have been given a trial from time to time, but without any substantial success. In 1877, the Government of India observed that deaths from snake-bite occur mostly in and about human habitations, and that it was obviously useless to pay large rewards to professional snake-catchers who catch snakes in the jungles and bring them into head-quarters. It was considered that rewards might with much advantage be given in towns and large villages with or without help from Local Governments, and rewards have for some years been generally granted on this principle in every Province except Madras. In 1881, the Chief Commissioner of Burma suggested for that Province a plan for organizing village snake-hunts in the rice-plains and granting a reward regulated according to the number of houses in the village to every village that successfully carried out a hunt, but it met with little success. In 1882, the Government of the North-Western Provinces and Oudh directed a trial of the experiment of enlisting in order to kill snakes a number of snake-hunters from among the classes (Kanjars, Musahirs, Naths, and others) who make a practice of trapping reptiles and small animals for food and other purposes. It was arranged that these men should receive a small retaining fee each month and an additional reward for each venomous snake in excess of a certain number destroyed by each man in any month. This system did not prove successful in the North-Western Provinces, as the hunters employed did little or nothing to destroy snakes and were suspected of breeding them for the sake of the reward, and a similar experiment tried in Bombay in 1884 was equally unsuccessful. It could not be tried in Bengal, the Province in which snakes are most destructive, because it contains no indigenous tribes of snake-catchers, and it was anticipated that if men were imported for the purpose they would suffer from the climate, especially during the rainy season, which is the best time for killing snakes. In certain parts of Bengal it was, however, found possible to stimulate in some measure the destruction of snakes by

*Proceedings of the Government of His Highness the Maharaja of Mysore,  
(General),—dated 14th May 1892.*

authorizing the payment of rewards by indigo planters in the interior of districts, but this plan has only been feasible over small areas. During a period of eleven years, the sum of Rs. 2,37,000 has been expended in the different Provinces on the destruction of snakes, with what the Government of India regret to say must be regarded as no practical result, and the evidence shows that in some parts of the country at any rate the grant of rewards for dead snakes has resulted in people taking to the practice of breeding them.

7. The Government of India have, in consultation with Local Governments and Administrations, recently had under examination the question whether it might not be possible to organize some better means for the destruction of wild animals and snakes, and have considered whether the establishment of a Government organization for the purpose of destroying wild beasts would be likely to be advantageous. An experiment of this kind was attempted in Madras some years ago, but it was found to involve great expenditure, and the results achieved would certainly not justify the plan being tried elsewhere. Moreover the larger carnivora are not gregarious, nor are they very numerous, and the adoption of any such system would inevitably end in causing the existing agency for destroying them to disappear. The Governor General in Council has for these reasons determined to maintain the system now generally in force of granting rewards for the destruction of wild animals. His Excellency in Council, however, desires that particular attention should be paid to the following points, *viz.* —

- (1) all possible facilities, consistent with due precautions against fraud should be afforded to those who kill wild animals for obtaining the authorized rewards
- (2) shooting parties, which engage to submit to the required precautions against injury to the forests, should be encouraged for the destruction of tigers and other dangerous carnivora in reserved forests and
- (3) licenses under the Arms Act should be granted freely to agriculturists located in the neighbourhood of forests and jungles for the protection of themselves and their cattle against wild beasts.

His Excellency in Council also thinks that more liberality might be shown in the offer of rewards for the slaughter of man-eating tigers. The destruction of one tiger which has taken to man-eating is of much more importance than that of a number of ordinary tigers, and the difficulty and expense involved in killing such animals are ordinarily very great. Native Shikaris are often, owing to the inferior quality of their weapons, unable to hunt such animals, which again can often only be dislodged from the positions they take up by beaters who require to be liberally paid. It appears to the Governor General in Council that the offer of rewards sufficiently liberal to cover their expenses would often induce military officers and others who have leisure at certain times of the year to organize parties with the object of disposing of advertised man-eaters, provided that they were assured of assistance from the local authorities, and His Excellency in Council would therefore advocate the offer in the case of man-eaters of large rewards together with the proffer of assistance in the way of elephants and other arrangements on the part of the District and Forest officials. It appears to the Government of India that if prompt action were taken by measures such as these to secure the destruction of man-eating tigers before they have had time to do much damage, the mortality from wild animals, more than one third of which is caused by tigers, might be reduced in some sensible degree. These observations apply also to the somewhat rare cases in which leopards take to man-eating. Wolves at times become very destructive in particular localities, and in such cases it would be profitable to entertain native hunters on liberal terms for the express purpose of exterminating packs that have made themselves dangerous. Under the present system of granting rewards, the Government of India have reason to apprehend that rewards are not unfrequently given, especially in the case of cubs, for jackals which are represented to be wolves.

*Proceedings of the Government of His Highness the Maharaja of Mysore,  
(General),—dated 14th May 1892.*

8. It has been shown above that the system hitherto adopted of granting rewards for the destruction of snakes has effected no reduction in the mortality from snake-bite. This mortality is, the Government of India regret, lamentably large, but it is not always realized that, large as it is, it will not bear comparison with the mortality from some forms of disease, in the reduction of which much more tangible results can be secured by the expenditure of money. In the following table the death rate in 1889 from fevers and snake-bite is contrasted for each Province:—

The inquiries recently made have satisfied the Government of India that no system of granting rewards for the destruction of snakes is likely to have any appreciable effect on the mortality from snake-bite. Snakes exist in such numbers that it is hopeless to expect to exterminate them, and there can be no reasonable doubt that large numbers of those for which rewards have actually been paid have been really harmless snakes. No satisfactory means exist in most parts of the country for ascertaining whether a snake for which a reward is demanded is really venomous or harmless, for the native officials in the interior of a district rarely know the difference themselves, while a villager who has killed a snake does not think it worth while to take it into head-quarters in order to obtain the small reward offered, even when the distance from head-quarters is not so great as to render it impossible to get the snake there before it has decomposed. If the rewards for killing snakes are raised to an amount which renders people willing to claim them, snake-hunters immediately begin to breed snakes in order to secure for themselves a livelihood. Moreover, so long as the people persist in walking in the dark with bare feet near their houses, where the same undergrowth, debris, and filth, which are the hot-beds of disease, provide cover in which venomous snakes can live and breed, deaths from snake-bite must continue to be numerous, for it is in such places that snakes are most dangerous, and not in the jungles where, though they exist in immense numbers, they can keep out of the way of human beings. The Governor General in Council is of opinion that the most effective way of reducing mortality from snake-bite is to destroy the cover afforded for snakes in or near villages, and it is the wish of His Excellency in Council that the utmost pressure that can be legitimately placed on Municipal Committees and Heads of villages should be brought to bear to induce them to clear such places, and to keep them clear. The Government of India do not believe that any general injunctions will produce much effect, and a system of exhibiting the statistics in totals and averages only serves to conceal the places most in fault. The Governor General in Council would therefore be glad if Local Governments and Administrations would direct Sub-Divisional Officers and Tahsildars to find out and attack those villages within their respective jurisdictions which show the greatest number of deaths from snake-bite, and insist on these officers paying personal attention to the organized cleansing of the surroundings of such places and reporting how these organized measures affect the mortality from snake-bite. If such a system were carried on year by year, the worst neighbourhoods should, the Government of India think, be in time appreciably relieved, and it would be interesting if the reports showed to what extent the destruction of venomous snakes and their eggs is carried out simultaneously with the cleansing of the villages, and how the removal of undergrowth or filth affects the mortality from cholera, fever, and other diseases, as well as from snake-bite. This aspect of the question should be brought to the notice of the officers of the Sanitary Department, and the supervision of the necessary measures might be made over to the

*Proceedings of the Government of His Highness the Maharaja of Mysore,  
(General),—dated 14th May 1892.*

Sanitary Board in each Province. The Governor General in Council will leave it to Local Governments and Administrations to decide whether the system of granting money rewards for snakes shall be continued or not. Though the system has generally been unsuccessful, it may be desirable to retain it in some places where as in some parts of Bengal, indigo planters have given their assistance in order to secure the payment of rewards only for venomous snakes, and if copies of the plates showing such snakes in Sir J. Fayer's book on the Thanatophidia of India are kept at the head-quarters of Tahsildars and at police stations and outposts, as has been arranged in the Punjab, the risk of rewards being paid for snakes which are not really venomous will be to some extent reduced.

9. The orders contained in clause (ii), paragraph 5, of Home Department Resolution No. 28—1579-95, dated the 15th July 1887, so far as they direct the submission of the reports on results of the measures adopted for exterminating wild animals and poisonous snakes triennially are, in accordance with the desire of Her Majesty's Secretary of State for India, hereby rescinded. Local Governments and Administrations are accordingly requested to submit full reports on this subject and to review the results at length yearly, as was the practice prior to the issue of the orders in the Resolution of 15th July 1887.

Letter No. 195 of the 24th January 1891, from the Senior Surgeon and Sanitary Commissioner with the Government of Mysore.

With reference to your No. 11409—121, dated 16th January 1891, forwarding copy of Resolution of Government of India on the subject of the measures to be adopted for exterminating dangerous wild animals and snakes and requesting expression of opinion on it, I have the honor to advise that the rewards for the destruction of the larger carnivora such as tigers and leopards be increased to something like what it was some years ago, and that a fair reward be also given, if such is not already the practice, for the destruction of wolves, and a lesser sum for hyenas. In the case of man-eating tigers or leopards decidedly liberal rewards should be offered for their destruction as soon as their existence becomes known and before they become too cunning and destroying them became proportionately difficult and dangerous.

This is in my opinion the best way of dealing with the matter.

I do not think the establishment of a Government organization for the purpose of destroying these animals would produce satisfactory results either as regards the number destroyed or in proportion to the expenditure which would entail and further I agree with the opinion expressed in the Resolution above referred to that the adoption of such a system would tend to causing the existing agency for destroying them, if not to disappear, to relax their efforts in that direction, unless perhaps the increased rewards above recommended were at the same time given to private individuals and measures taken to prevent any restrictions being placed on their efforts to destroy these animals.

As regards snakes it is quite a different matter, and I entirely agree with the opinion, that, for the reason stated, no system of granting rewards for their destruction is likely to have any appreciable effect on the mortality from snake-bite, even though I would not at the same time suggest the advisability of withdrawing such rewards as are now given, as the practice is principally confined to a few of the larger towns of the Province where the destruction of even a comparatively small number of snakes amongst a crowded population must be advantageous.

With reference however to the general question as far as it concerns every town both large and small and villages and hamlets, I entirely concur with the opinion that the most effective way of reducing mortality from snake-bite is to destroy the cover afforded for snakes in or near villages, such as rank vegetation, brushwood, dead walls, and debris of all sorts and it readily suggests itself to me that the most effective way of doing this would be to work it hand in hand with a scheme for the improvement of village sanitation, whereby the double object would be undertaken of affording less cover to these reptiles and at the same time improving the general health of the people which latter seems urgently called for as the mortality from fever per 1,000 deaths from all causes is according to para 8 of the Resolution very much larger in the Mysore Province than any where else in India.

With reference to the concluding portion of para 8 referred to, I would invite attention to my letter No. 785 of 26th January 1888, suggesting that casts of the principal poisonous snakes

*Proceedings of the Government of His Highness the Maharaja of Mysore,  
(General),—dated 14th May 1892.*

should be distributed to the principal Police Stations together with small supplies of appropriate medicines, &c. with directions for use in snake-bite. If the casts were considered too expensive, copies of the plates adverted to might be supplied instead.

Letter No. 509, dated the 2nd March 1891, from the Director of Statistics and Agriculture in Mysore.

With reference to your No. 11408—1481, dated 20th January 1891, forwarding, for expression of my opinion, copy of the Resolution of the Government of India No. 40 Pub.—2374-2585, dated 4th December 1890, on the subject of the measures to be adopted for exterminating wild animals and poisonous snakes, I have the honor to state as follows:—

2. From a knowledge of this Province for many years past, I can state that the number of tigers and cheetahs, is on the decrease, whilst wolves and hyenas seem to have slightly increased since the last famine.

3. The facilities afforded by the Railway to getting about, will sooner or later tend to the extermination of all wild animals; but this desirable end can further be hastened by more freely granting licenses to Native Shikaris and Rayats under the Arms Act. It is feared that formerly at least, if not to some extent now, that from motives of selfishness or sportsmen like ideas, licenses have been withheld from natives; forgetting perhaps that extinction not preservation of such dangerous wild beasts was the end in view. The more freely granting of gun licenses will develop instincts of sport and courage which will tend yearly to diminish the number of tigers and cheetahs, &c.

4. I am not in favor of organized shooting parties except in the case of man-eating tigers when as observed by the Government of India, prompt action to secure their destruction would tend to reduce the loss of human life. Such prompt action would of course be materially assisted by more liberality in the amount of reward to be paid for the slaughter of man-eaters.

5. The particular attention of all District Officers should be drawn to the following observation of His Excellency in Council.—

- (1) "All possible facilities, consistent with due precautions against fraud, should be afforded to those who kill wild animals, for obtaining the authorized rewards."

There is much in this remark. Delays and obstructions on the part of underlings have a prejudicial effect on those who might otherwise seek a more regular livelihood by killing tigers and cheetahs for the sake of rewards alone.

6. Observation or point (3) of His Excellency in Council is also noteworthy. (3) "Licenses under the Arms Act should be granted freely to agriculturists located in the neighbourhood of 'forests and jungles for the protection of themselves and their cattle against wild beasts'"

7. In the quotation given below of the Resolution of the Government of India now under reference, the main cause of the comparatively large mortality from snake-bites, is undoubtedly given, as well as the best or only remedy:—

"Moreover, so long as the people persist, in walking in the dark with bare feet near their houses, where the same undergrowth, debris, and filth, which are the hot beds of disease, provide cover in which venomous snakes can live and breed, deaths from snake-bite must continue to be numerous, for it is in such places that snakes are most dangerous, and not in the jungles where, though they exist in immense numbers, they can keep out of the way of human beings. The Governor General in Council is of opinion that the most effective way of reducing mortality from snake-bite is to destroy the cover afforded for snakes in or near villages, and it is the wish of His Excellency in Council that the utmost pressure that can be legitimately placed on Municipal Committees and Heads of villages should be brought to bear to induce them to clear such places, and to keep them clear. The Government of India do not believe that any general injunctions will produce much effect, and a system of exhibiting the statistics in totals and averages, only serves to conceal the places most in fault. The Governor General in Council would therefore be glad if Local Governments and Administrations would direct Sub-Divisional Officers and Tahsildars to find out and attack those villages within their respective jurisdictions which show the greatest number of deaths from snake-bite, and insist on these officers paying personal attention to the organized cleansing of the surroundings of such places and reporting how these organized measures affect the mortality from snake-bite. If such a system were carried on year by year, the worst neighbourhoods should, the Government of India think, be in time appreciably relieved, and it would be interesting if the reports showed to what extent the destruction of venomous snakes and their eggs is carried out simultaneously with the cleansing of the villages, and how the removal of undergrowth or filth affects the mortality from cholera, fever and other diseases, as well as from snake-bite. This aspect of the question should be brought to the notice of the officers of the Sanitary Department, and the supervision of the necessary measures might be made over to the Sanitary Board in each Province". Many, if not most of the villages in Mysore are surrounded by thick "Pothas"

*Proceedings of the Government of His Highness the Maharaja of Mysore,  
(General),—dated 14th May 1892.*

or hedges and the backyards in raiyats' houses have generally hedges also and much rank vegetation. It is in resorting to these backyards for privy purposes at night that fatal snake-bites mostly occur. The remedial measures suggested by the Government of India should therefore in my opinion be at once given effect to, especially as they further commend themselves in a sanitary point of view. While removing dense vegetation and live hedges, it may be necessary to replace the latter by mud walls.

8. I would advocate the retention of the system of granting rewards for destruction of venomous snakes in towns where there are Municipalities, for numerous cobras are thus destroyed by gardeners and other persons for the sake of the reward.

9. In conclusion I can only state that if District and Sub-Divisional Officers and Amildars act up to the spirit of the instructions contained in the passage quoted in the preceding para, not only will there be fewer deaths from snake-bite, but the general health of the rural population will be considerably improved.

2. The average mortality of persons from injuries received from wild animals and snakes during the three years 1887-88, 1888-89 and 1889-90 was not great being only .002 and .022 per mille of the populations, but as observed by the Government of India, averages are fallacious and the Deputy Commissioners are requested to note in their future reports the localities where the mortality is the greatest, and to state fully the measures adopted to exterminate wild animals and snakes in their localities. The Government are prepared to sanction an increased scale of rewards or special rewards if necessary.

3. The special attention of the Deputy Commissioners is drawn to the suggestions contained in the papers read above in regard to the desirability of destroying the cover afforded for snakes in or near villages, and they are requested to make a suitable provision for the purpose in their next Municipal and Local Fund Budgets. The Government will be glad to consider any suggestions which the Local Officers may make to secure the end in view.

READ:—

Report on the audit of the accounts of the Mysore City Municipality for the year 1888-89, received with letter from the Comptroller, dated 29th April 1892, No. 545.

No. 2918-28—L. 400, DATED BANGALORE, 20TH MAY 1892.

**ORDER THEREON.**—The report discloses many irregularities. Vouchers are not forthcoming for several items of expenditure; payments have been made in several cases without the order of the Vice-President; several disbursements, instead of being shown separately in the accounts, have been deducted from the receipts and balances only shown as receipts; payments were sometimes made long before the order for payment was issued; and registers of payments as well as of receipts have not been kept properly. Separate orders will be issued in regard to the several items placed under objection by the auditor. Meanwhile, both from the report now received and the reports already reviewed, the Government are satisfied that some change in the system of audit is called for. They accordingly resolve to direct that the receipts and expenditure of *all Municipal Funds* i.e. from 1st June 1892, audited by the Comptroller monthly in the same manner as the receipts and expenditure of Provincial Funds are. The Presidents of Municipal Boards should forward to the Comptroller, from 1st June 1892, monthly accounts of receipts and expenditure of each Municipality with the vouchers relating thereto for audit. The Comptroller is requested to organize a suitable establishment for the audit of Municipal Funds and report the same for the sanction of Government. The cost of the establishment will, in the first instance, be debited to the "Suspense account" and adjusted once a year by debiting the cost to each Municipality with reference to its gross receipts.

2. The District Funds are now audited by the Comptroller monthly and no change in the system is called for.

3. The Comptroller will issue detailed instructions in regard to the forms in which monthly accounts should be submitted. Care should be taken to see that the balance of each Municipality at the end of each month corresponds with that in the Treasury accounts and that advances made are duly recovered or adjusted in proper time.

4. Statements showing monthly receipts and expenditure of each Municipality should be submitted to Government by the Comptroller and Presidents of Municipalities as already directed.

**ORDER.**—There is at present no rule in regard to the length of time during which members on the District Fund Boards may remain in office, and the Government consider it desirable that the members should be changed from time to time. The Deputy Commissioners are therefore requested to submit a statement showing the names of the present non-official members, the dates of their appointment and report whether, considering the interest the present members take in their work, they propose to continue those who have been holding the office for upwards of 5 years or wish to have new members in their stead. In future, no member should be allowed to remain in office for upwards of 5 years without his retention being approved of by Government. If any member absents himself for 3 meetings consecutively, his name should be struck off the list and the appointment of a new member proposed.

(General),—dated 23rd May 1892.*

No. 3075-86—L. 425, DATED BANGALORE, 23RD MAY 1892.

**ORDER.**—Government resolve to issue the following instructions in regard to the execution of works undertaken by the Revenue Department from District and Municipal Funds or Local Funds General:—

- (1). No works requiring professional skill should be undertaken by the Revenue Department. All such works should be shown separately in the Budget statements in view to arrangements being made for their inclusion in the Public Works Department Budget.
- (2). The insertion of works in the Budget statements or in the lists submitted to Government for general approval, does not do away with the necessity for detailed estimates and notifications of sanction under the rules laid down in Government Proceedings noted in the margin. No work should be undertaken before the estimate is sanctioned by the proper authority.
  - (1). Letter from the Secretary to the Chief Commissioner, to the Superintendents of Divisions, Nos. 412, 413 and 414, dated 21st January 1871.
  - (2). Para 19 of Government Proceedings, dated 5th February 1891, No. 12700-10—Cir. 267 L. 296.
  - (3). Para 5 of Government Proceedings, dated 10th September 1891, No. 6591-600—L. 451.
- (3). The sanction of an estimate does not necessarily authorize the Deputy Commissioner to commence the work unless there is provision in the Budget from which the cost could be met. If there is no suitable provision in the Budget for the work, it must either lie over or a Supplemental Budget submitted and sanction obtained.
- (4). Deputy Commissioners are at liberty to take the advice of the Executive Engineers in respect of works taken up by the Revenue Department; but the Executive Engineers are not bound to furnish plans and estimates.
- (5). Works, for which estimates are sanctioned in one year, may be carried out in the following year without further sanction, but the cost must always be met from the Budget of the year in which the work is actually carried out and the money expended.
- (6). If works for which estimates were sanctioned, are not commenced within 2 years from the date of sanction, a fresh estimate must be submitted with explanation as to why the work was not commenced within 2 years.
- (7). All incomplete works should have preference over those not commenced.
- (8). There must be a completion certificate for each work, without which the charge will not be finally admitted by the Audit Department.
- (9). Deputy Commissioners are at liberty to entertain temporary establishments for the supervision of the works undertaken by them and charge the cost proportionately to the works, for the supervision of which they are employed. But the cost should in no case exceed 10 per cent of the total estimate of each work. No permanent establishment should be entertained without the special sanction of Government.
- (10). Works should, as far as possible, be carried out by contract.

*Proceedings of the Government of His Highness the Maharaja of Mysore,  
(General),—dated 23rd May 1892.*

- (11). No transfer of funds from one Budget item to another should be made without the sanction of Government.
- (12). All payments from one Department to another must be effected by book adjustments and not by remittances of cash.
- (13). Sums not required for immediate expenditure should not be drawn from the Treasury. The system of drawing money from the Treasury for expenditure and keeping it in deposit, must be stopped, if it still continues.

I have the honor to request that you will be so good as to issue a Circular Memorandum to all Heads of Departments, suggesting the necessity of returning proof sheets sent from the Press to Departments as expeditiously as possible. Instances have occurred, where the work in the Press has been much delayed by Departmental proofs being kept back for unusually lengthy periods, while much unnecessary inconvenience to Government work results in the locking up of many forms of type which have to be kept standing during the time proofs are not returned, and which cannot be utilized till the work is printed.

*Proceedings of the Government of His Highness the Maharaja of Mysore,  
(General),—dated 4th May 1892.*

No. D. 414, DATED BANGALORE, 4TH MAY 1892.

ORDER.—The work of granting loans for Irrigation wells in the Tumkur and Chitaldroog Districts, entrusted to Mr. B. G. Krishnaiengar, Assistant Commissioner, has been concluded, and it is understood that the work in the Kolar District is also approaching completion. Rupees 2,35,000, allotted by Government for the purpose as noted in the margin, have, for the most part, been sanctioned by the Special Officers by way of loans, and it is believed that more loans on any large scale are not needed during the present season in the Districts named above. There however now remains the proper supervision of the progress made in the construction of the wells and payment of the second instalments of the loans. For this purpose in all the three Districts for which advances have been sanctioned, for the granting of new advances if any in the Bangalore District and generally for the disposal of matters connected with Irrigation wells in the whole Province, the Government have decided upon continuing Mr. B. G. Krishnaiengar on the same duty for some months more. He will draw the same allowances as hitherto and will have his Head-quarters at Bangalore, making occasional tours of inspection in the Taluks where Irrigation well works are in progress.

2. Mr. Krishnaiengar is requested to report himself at once to the Honorable P. Chentsal Rao Pantalu Garu, c. i. e., Councillor to His Highness the Maharaja, who will give him instructions as to the work to be done by him in future in connection with Irrigation wells.

3. Mr. Nanjundaiya, (Sub-Judge on Irrigation well duty in the Kolar District) must close his work as quickly as possible and resume charge of the Subordinate Judge's Court at Bangalore.

Letter No. 1043, dated 12th April 1892, from the Deputy Commissioner, Tumkur District, submitting a petition from one Prabhaya of Kolala village in the Tumkur Taluk, appealing against the order passed by Mr. B. G. Krishnaiengar, Assistant Commissioner on Special duty, declining to sanction a loan for constructing an Irrigation Well in the petitioner's garden.

Letter No. D. 365, dated 22nd April 1892, to Mr. B. G. Krishnaiengar, calling for a report as to the circumstances under which he refused to grant the loan applied for by the petitioner.

Letter No. 111, dated 25th April 1892, from Mr. B. G. Krishnaiengar, reporting that he declined to sanction the loans because the site of the proposed well was too close to a nullah and because, in his opinion, the well did not contain an unfailing spring.

No. D. 427, DATED BANGALORE, 6TH MAY 1892.

ORDER THEREON.—Under the circumstances explained by Mr. B. G. Krishnaiengar, the loan applied for cannot be sanctioned. The petitioner should be informed accordingly.

2. With reference to the queries put by the Deputy Commissioner, whether he can entertain appeals from the decisions of the Special Officer appointed to grant loans for Irrigation Wells and whether he can, under Section 217 of the Mysore Land Revenue Code, call for records of the proceedings of such Special Officer, it is observed that the Deputy Commissioner has certainly the power to call for records in such cases but the granting of loans for Irrigation Wells being a mere concession of the Government made with the view of helping raiyats and other land-holders, they cannot claim the concession as a matter of right. The Deputy Commissioner can always keep himself informed as to the wants of the people of his District in this direction and himself grant loans even in cases in which the Special Officer may have refused them, if any special circumstances render such a course necessary. It is not intended that the formalities involved in the entertaining and disposal of revenue appeals should be applied to these loans.

**No. D. 428, DATED BANGALORE, 7TH MAY 1892.**

**ORDER THEREON.**—In the letters cited above, orders are solicited as to whether the remission of half assessment on rice lands for 1891-92, ordered in Proceedings No. D. 298, dated 2nd April 1892, can be granted in the cases hereunder described. The orders of Government upon each such case are entered against it below :—

**I. Cases referred by the Deputy Commissioner of Kolar—**

- (1) Whether lands classed as garden, but on which only wet crops are being raised are entitled to the remission if lying fallow.

**ORDER.**—This question probably refers to lands classed as Bagayet, because of being irrigated by both flow and lift. On such lands, crops, *as a rule*, have been raised during the past season and therefore no general order for remission can be issued in regard to them. But the Deputy Commissioner may recommend remission in individual cases, of which, it is believed there cannot be many in a Taluk.

- (2) Whether lands which depend for water-supply on both the tank and a well are entitled to the concession when lying waste.

**ORDER.**—The order passed above disposes of this question.

- (3) Whether wet lands on which dry crops have been raised are entitled to the benefit of the remission.

**ORDER.**—Raiyats, who cultivated dry crop on tank irrigated lands, must have realized very good profits owing to the high prices which prevailed and are not therefore in need of help by way of a remission. Nevertheless, in order to encourage the cultivation of dry crops on wet lands as much as possible in bad seasons like the past one, the Government will extend the benefit of the remission of half the wet assessment to rice lands cultivated in whole or in part with dry crops *owing to absence or insufficiency of tank water for the usual wet cultivation*, charging only the average dry assessment on the portion from which a dry crop may have been actually taken by using tank water to irrigate for such dry crop. The actual remission in this case of use of tank water for dry cultivation will therefore be the difference, if any, between the remittable half of the wet assessment on the entire land and the dry assessment on the part which has yielded a dry crop. It should however be understood that no dry assessment should thus be levied where the attempted dry cultivation failed to yield a crop or where dry crop was raised, not with the aid of tank water, but merely with the help of the moisture in the land or of rain or by means of wells sunk by the raiyat for the purpose.

- (4) Whether the holder of wet lands who, on account of the present drought, has sunk a well and has raised some fast growing crop on the whole survey number, or only a part of it is to be granted remission.

*Proceedings of the Government of His Highness the Maharaja of Mysore,  
(General),—dated 7th May 1892.*

ORDER.—This has been disposed of by the order on the 3rd question.

- (5.) Whether the concession is to be denied in cases where only a portion of the survey number is cultivated with wet or dry crops.

ORDER.—The case, so far as it relates to the cultivation of a portion of a survey number with dry crops, has been disposed of by the order on question (3). Where wet crop was raised on a portion of a field, the concession in question may be granted with reference to the portion which lay waste.

II. Questions submitted by the Sub-Division Officer, Chikballapur.

- (1.) Whether lands under tanks which are classed as "Bagayet," but which from time immemorial have only been cultivated with rice and which have, equally with lands classed as wet lain fallow owing to want of water in the tanks are to get the benefit of the remission.

ORDER.—This is the same as question No. 1 referred to by the Deputy Commissioner of Kolar.

- (2.) Whether lands classified as "Nalla" lands, but the reputed sources of water-supply for which are streams which, last year, were as dry as the tanks, *e. g.*, the Kusavati, Chitravati, &c., are entitled to the concession.

ORDER.—No general order for remission can be issued in such cases, but the Deputy Commissioner may recommend individual cases, of either particular lands or particular streams, for remission.

In the case of lands irrigated by the Kusavati and Chitravati, a permanent reduction of assessment would seem to be necessary if the Bhairasagar and Ramasamudra tanks have permanently reduced the water-supply of such lands. This question may be brought forward hereafter in due course. In the mean time, the order remitting half the wet assessment may be applied to these lands as a special case.

- (2.) Whether the local cess on the half of the assessment which is to be remitted, being an appendage of the same, should not also be remitted.

ORDER.—It should be remitted.

III. Question submitted by the Deputy Commissioner, Chitaldroog—

Whether wet lands under tanks which have yielded only a dry crop, not raised by means of irrigation are entitled to the concession.

ORDER.—This has been answered in the order recorded with reference to the question 3 submitted by the Deputy Commissioner, Kolar District.

The following report by Mr. C. Raghavachariu, General Assistant Commissioner, on the condition of the Closepet Taluk, received with docket No. 32, dated 2nd May 1892, from the Deputy Commissioner of Bangalore :—

**STATE OF CROPS STANDING.**—Sugar-cane, mulberry and a few vegetables are in good condition. In Closepet Kasaba one raiyat has raised a crop of ragi by lift irrigation. The extent is less than an acre.

**SUPPLY OF FOOD GRAINS.**—It may be safely stated that the supply is abundant. The stacks of ragi straw which I saw are much larger than in the Devanahalli or even Nelamangala Taluks. The raiyats have a cheerful appearance and in the villages themselves there is nothing to indicate distress. The markets are well supplied. I was not present in any of the Santés but I was informed that trade was brisk. There is a large population of Muhammadan ghosha women in Channapatna and they find their livelihood by pounding paddy. For this purpose paddy is imported from Seringapatam and other Cauvery villages and rice is exported from Channapatna even so far as Bangalore. This occupation is as brisk this year as over.

**WATER-SUPPLY**—Quite sufficient after the rains both for men and cattle. There were two good rains. On the 9th and 10th 1 inch and 7 cents fell and on the 21st and 22nd it was 1 inch and 60 cents. The second rain brought water to most tanks. There are 16 Public Works Department and 50 Revenue Department tanks in the Taluk, omitting small kattes. The Honganur, Virupakshipur, Sular and Kodampalli tanks received two to three months' supply of water. Only about 20 per cent of the total number of tanks have received no water. The new anikat at Abbur was allowed to feed the Mallur and Putta tanks, each of which received thereby a two months' supply. The rain was general. The small cattle ponds are all full. In wells there has been no marked rise of water yet.

**FODDER FOR CATTLE.**—This Taluk never suffered severely in this respect. The rain of the 9th and 10th made the grass in all the jungles to sprout. The grass is now just tall enough for cattle to nibble. In a week more it will be mature and nutritious. Cattle are in good condition. Ragi straw is largely purchased at Bidadi for consumption in Bangalore.

**DEMAND FOR WORK.**—The raiyats are all busy ploughing. About 25 per cent of the land has been already ploughed. In a few south-western villages, they propose sowing sesamum and jola. The rest of the ploughing is to prepare the land for ragi. This operation is done soon after the harvest if the land allows it; but last year the land was too dry. The one or two works started for relief attract no laborers.

The general condition of the Taluk is satisfactory. Even without further rain for more than a month, water and fodder can be procured. Agricultural operations will not be impeded as no sowing is yet made. There was an isolated case of cholera in Channapatna, imported from Melkote. The rain which fell seems to have suppressed the disease at once.

The following report on the condition of the Kadar District for the fortnight ending 30th April 1892, received with docket No. 7, dated 4th May 1892, from the Deputy Commissioner of Kadar :—

**STATE OF CROPS.**—The few standing crops, viz., paddy (kode) and sugar-cane are in good condition.

The maize plants in the bed of the Iswarahalli Tank are in fair condition.

**SUPPLY OF FOOD GRAINS.**—The markets were well supplied with rice and ragi, which are the chief food grains.

**SUPPLY OF WATER.**—Fair in all parts. Well works sanctioned from District Funds are in progress.

The recent rains have nearly filled the kattes in the Maidan Taluks, and at present there is about 2 months' supply.

*Proceedings of the Government of His Highness the Maharaja of Mysore,  
(General),—dated 8th May 1892.*

**FODDER FOR CATTLE.**—Prospects good throughout the District, and owing to recent rains, grass is growing rapidly.

The following report on the condition of the Tumkur District for the fortnight ending 15th April 1892, received with docket No. 1118, dated 27th April 1892, from the Deputy Commissioner of Tumkur :—

**HARVEST.**—Jola in some parts of Sira and Pavagada Taluks, paddy under Tarur tank in the Tumkur Taluk, Jodi Timlapur, Sujikat and Devikere tanks in the Huliya Sub-Taluk and Kandikere tank in the Chiknayakanhalli Taluk, and sosi ragi and wheat in some parts of Sira Taluk were harvested. Bengal-grass in some of the tank beds was also harvested, while the same in most of the tank beds was submerged during the recent rains.

**STANDING CROPS.**—Are in fair condition.

**FOOD GRAINS.**—Prices remain stationary and markets continue to be well supplied.

**FODDER.**—Scarcity of fodder is much felt.

**WATER.**—From the rain-fall during the fortnight, many tanks received some supply of water and thus want of water is much reduced. Besides the many fresh water wells already sunk and being sunk at Government cost are proving very useful.

**DEMAND FOR LABOR.**—At the beginning of the fortnight, people in large numbers were resorting to the Relief Works, but owing to the showers that fell since, the raiyats have begun tilling their fields and consequently the numbers on the Relief Works have largely diminished, and in some cases there is none on the works.

**GENERAL CONDITION.**—Cholera appeared in some of the villages of the Kunigal Taluk, and the Turuvekere Sub-Taluk. There were some deaths. It has now abated, but some are suffering in 4 villages of the latter Taluk. The days are very warm.

The following report on the condition of the Maddagiri, Sira and Pavagada Taluks, submitted by the General Assistant Commissioner, Tumkur District, for the same period :—

**HARVEST.**—Has been completed in all places excepting in Pavagada, where it might take a fortnight more. The cholam crop grown in the tank beds of the Maddagiri Taluk is being reaped in many places. The yield may be estimated at from 4 annas to 8 annas in the average. In an experiment conducted by me in the case of the Bijwara tank bed, I found that the yield of cholam from one acre of land was 12 pallas or 1,200 seers; while the straw weighed 40 pounds. In Maddagiri Taluk alone, 44 tank beds containing an area of 1,144 acres has been cultivated principally with cholam.

**STANDING CROPS.**—Vaisakh paddy and sosi ragi crops are in a moderate condition. Those in the Maddagiri Taluk are thriving.

**CULTIVATION.**—There has been some rain in all the Taluks; some tanks received supply of water for periods ranging from a fortnight to two months. In a few places, sowing operations have already commenced.

**PRICES.**—There has been no change in the price of food grains. Rice sold from 7 to 8 seers and ragi from 18 to 20 seers a rupee in the Taluks comprised in this Range.

**FODDER.**—Wherever there was an average cholam crop, there is fodder sufficient to last for 3 or 4 months more. Generally speaking, fodder is procurable with difficulty.

**GENERAL CONDITION OF PEOPLE.**—Cooly classes are well off. Private works in addition to Government Public Works Department and Relief Works afford ample means of livelihood to laborers. Excepting in the Maddagiri Taluk, Relief Works have been progressing in all other Taluks, greatest progress being in the affected Taluk of Sira, where  $\frac{1}{3}$ rd of the total estimated amount has already been spent.

Letter No. 1113, dated 26th April 1892, from the Deputy Commissioner, Tumkur District, soliciting orders—

- (1) whether the order regarding remission of a moiety of assessment on rice lands applies to Service and other Inam wet lands,
- (2) whether lands under tanks classed as Bagayat but which are annually cultivated with rice crop and contain no cocoanut or supari trees are not to be treated like other rice lands,
- and (3) whether lands which though not under any tank are nevertheless usually cultivated with paddy with the aid of the drainage and percolation water of adjoining high grounds, but which owing to the drought lay fallow, are not entitled to the concession

No. D. 434, DATED BANGALORE, 8TH MAY 1892.

ORDER THEREON.—With reference to the first question, the Government direct that in the case of Service Inam lands held by Totis, Talaris, and Nirgantis in the Bangalore, Kolar, Tumkur, Mysore and Chitaldroog Districts, one-half of the quit-rent, with proportionate local cess and irrigation cess, if any, be remitted. In the case of other Service Inams, the remission should be restricted to rice lands which may fulfill the conditions prescribed for remission of half the wet assessment in the case of Government rice lands. The amount of remission should be the excess, if any, of the quit-rent over and above one-half of the Survey valuation, so that the amount payable on such lands would be one-half of the Survey wet assessment as in the case of Government lands.

2. The second question referred to above has been already disposed of in Proceedings No. D. 428, dated the 7th instant.

3. The case of such special tracts as are referred to in the third question, if reported after careful inspection, will be favorably considered.

On two works, one (Halikunte tank) in the Dodballapur Taluk and the other in the Devanahalli Taluk, no work was done during the fortnight under report; in the former case, owing to non-receipt of estimates from the Public Works Department, explanation was called for by the Deputy Commissioner in both cases.

On three of the works in the Bangalore Taluk, no work was done during the fortnight, because arrangements were being made in one case with the Railway authorities for a supply of a wagon-load of earth and in the other two cases for stone work.

One work in the Anekal Taluk was completed on the 6th March 1892

In the Bangalore Taluk, the removal of silt from and deepening of the Lal-Bagh tank were completed on the 2nd April. On two of the works, no payments were made because the measurement of work done had not been taken.

The works were partly in the charge of Patels and partly under Shanthhogs. Some were given out on contract (mostly in the Dodballapur Taluk) and the others were carried on on the Amani system.

In the Dodballapur Taluk, the rates of wages (2 annas 6 pies per man and 1 anna 9 pies per woman) were complained of as being low and the coolies demanded payment on the work turned out. In the other Taluks the wages considered reasonable. The coolies in the Channarayana Sub-Taluk were paid according to the work turned out. In the Devanahalli Taluk, coolies did not come in large numbers.

The management and supervision were satisfactory.

The following report on the condition of the Chitaldroog District for the fortnight ending 30th April 1892, received with docket No. 80, dated 5th May 1892, from the Deputy Commissioner of Chitaldroog :—

During the fortnight under report, there was a good fall of rain in parts of all the Taluks of the District except Molakalmuru. All the Amildars except that of Molakalmuru report that most of the smaller tanks and a few of the bigger ones in their Taluks have received supplies of water varying from 15 days to two months. In parts of the Taluks of Chitaldroog, Hiriyur, Jagalur, and Challakere, Saguvalli Katties have received a fair supply of water. Everywhere the raiyats have commenced to plough their lands and are hopeful as to future prospects. The quantity of rain gauged at the several Taluk Head-quarters of the District during the fortnight under report was as follows :—

2. **Vaisakha** paddy under tanks is in fair condition in all the Taluks of the District. In the Taluks of Chitaldroog, Chellakere, Hiriyr, Jagalur and Molakalmuru, the wet crops under Kapile wells and streams, which consist of paddy, watered cholam, navane, wheat and sajje are also in fair condition. Sugar-cane was harvested in the Taluks of Chitaldroog and Davangere and the out-turn is estimated at 4 annas in the rupee. In the Hoedurga Sub-Taluk, Vaisakha paddy below some of the tanks was harvested and the out-turn is estimated at from 6 to 8 annas in the rupee. In the Taluks of Hiriyr, Chellakere and Molakalmuru, watered cholam, navane, wheat and sajje were harvested, and the out-turn is estimated at from 4 to 6 annas in the rupee.
3. **SUPPLY OF FOOD GRAINS.**—The supply of food grains is sufficient in all the Taluks of the District. Ragi and cholam were exported during the fortnight to various places in British Territory from the Taluks of Holalkere, Davangere and Jagalur.
4. **PRICES.**—There has been no marked change in prices during the fortnight under report. The market prices of the different food grains at the Taluk Head-quarters of the District for the present and past fortnights are given below:—

5. **SUPPLY OF FODDER AND WATER.**—In the Taluks of Chitaldroog and Holalkere, the supply of fodder and water is generally sufficient. In the Davangere Taluk, there is a moderate supply of fodder. The supply of water is generally sufficient. In the Jagalur Taluk, the supply of fodder is scanty in the Lokke Hobli and in parts of Kasaba and Bilehod Hoblis where cattle are fed on date and kamara leaves, but the supply of water is generally sufficient.

In the Taluks of Hiriyr, Chellakere and Molakalmuru, the supply of fodder is very scanty and cattle are fed on date and other leaves. The supply of water in the Taluks of Chellakere and Molakalmuru is generally sufficient, while in the Hiriyr Taluk it is scanty except in river-side villages and those where there are Kapile wells.

6. **DEMAND FOR LABOR.**—There has been no increase in the demand for labor during the fortnight under report. On the other hand, there has been a decrease in the number of coolies employed on Relief Works owing to recent fall of rain. There is sufficient employment for professional laborers on works connected with Irrigation wells and Saguvali Kattes. Details regarding the number of laborers employed on Relief Works during the fortnight under report are given in the fortnightly report prescribed by Government.

7. **RELIEF TO WEAVERS.**—During the fortnight under report, cloths to the value of Rs. 591—13—0 were purchased from the weavers at Molakalmuru.

*Proceedings of the Government of His Highness the Maharaja of Mysore,  
(General),—dated 10th May 1892.*

8. **GENERAL CONDITION OF THE DISTRICT.**—The general condition of the people in the District continues to be good. Cholera still prevails in parts of Davangere, Chitaldroog and Jagalur Taluks

The condition of cattle remain the same as before. A few more showers of rain will, it is hoped, produce a good supply of pasture and thereby cause an improvement in the condition of the cattle

The following report on the condition of the Hassan District, for the fortnight ending 30th April 1892, received from the Deputy Commissioner, Hassan District

1. **RAIN-FALL**—There was rain-fall on an average of 1 inch 5½ cents in all the Taluks. The raiyats are engaged in ploughing operations. More rain is wanted and there are indications of more rain. The tanks in the Maidan Taluks of Arsikere and Channarayana have received a supply of water from 1 to 4 months respectively. Information of similar supply of water received from Holé-Narsipur and Arkalgud. Drinking water is easily obtainable.
2. **CONDITION OF CROPS**—Kor-paddy and sugar-cane under large tanks are reported to be in pretty good condition in parts of Hassan, Manjarabad and Channarayana Taluks
3. **PRICES OF FOOD GRAINS.**—Markets are well supplied. The price of food grains is stationary.
4. **FODDER FOR CATTLE.**—Generally available. Date leaves are still used as fodder in the Arsikere Taluk. This will shortly be discontinued as there has been rain-fall during the fortnight under report and green grass will come up hereafter.
5. **PUBLIC HEALTH.**—Generally good. Small-pox is still prevalent in some villages of the Belur Taluk. Deaths from cholera have been reported from the Taluks of Hassan, Channarayana and Gama. Every effort is being made to check the evil, and the Amildars have been enjoined to attend to village sanitation.
6. **DEMAND FOR LABOR.**—There is demand for labor both from private parties as well as in the Public Works Department. The number of men reported to have been employed on tank work alone (not on Relief works) in the Channarayana Taluk is 1,114.
7. **DISEASE AMONG CATTLE.**—Murrain is reported in the Halabid Hobli of the Belur Taluk.

The General Assistant Commissioner had, in addition to the advances shown in the above table, sanctioned loans to the extent of Rs. 1,730. But the details of these had not been received for inclusion in the return.

In one instance, a loan was refused on account of the well being in Service Inam land. The Deputy Commissioner observes that the orders of Government on the subject were duly communicated to the Special officer.

Six of the applicants in the Mulbagal Taluk, to whom loans had been sanctioned after investigation, declined at the last moment to receive them. They could well be spared.

\*9 for new wells and 8 for old wells, but whether kapile or yatam not stated.

†One more loan amounting to Rs. 200 was granted, but for what kind of well it is not stated. The amount of the loan and the amount paid out of it on account of 1st instalment have however been included in the table.

**Proceedings of the Government of His Highness the Maharaja of Mysore,  
(General),—dated 10th May 1892.**

In 2 cases of loans sanctioned in January and March last, the loans were, at the request of the applicants, cancelled, as they could not do the work within the time allowed or with the amount sanctioned. In 4 cases, the loans sanctioned were increased in amount on representations made by the applicants, and in one case the amount was reduced by Rs. 50, as the applicant had mentioned a No. (field) to which he had no right. (Particulars of these cases given).

The allotments at the disposal of the Special officer had been exhausted and he was doubtful whether the season had not too far advanced to apply for a fresh grant to meet the applications which remained for disposal.

The need for drinking water wells at Bhairkur, Sigur, Hosahalli and Kondatimmanahalli were brought to notice. The Deputy Commissioner sanctioned one for Bhairkur, and awaited Amildar's reports in regard to others.

The prayer of the Holiyas of Avalkuppe for the cost of *vades* for their well has been recommended by the Special officer.

**No. D. 444, DATED BANGALORE, 10TH MAY 1892.**

**ORDER.—Recorded.**

The alterations made in the loans already granted are noted.

READ —

The following report on the condition of the Bangalore District for the fortnight ending the 30th April 1892, received with docket No. 35, dated 3rd May 1892, from the Deputy Commissioner, Bangalore District —

**AGRICULTURE AND CROPS** — Ploughing has commenced throughout the District. Sugar-cane in parts of Bangalore, Nelamangala, Devanahalli and Anekal is being planted. The harvest is poor owing to failure of water. Wet crops in Devanahalli stated to be withering. Kar-ragi, jola and jingelly are reported to be sown in parts of Closepet and Kankanhalli. Also vegetables, wherever water is procurable.

**FODDER AND CATTLE** — Fodder still scarce, being imported from Seringapatam in parts of Channapatna. Cattle are being fed on leaves and are in very poor condition. Dod-raga prevails in parts of Nelamangala, Bangalore and Kankanhalli.

**WATER-SUPPLY** — Several tanks in the District have received a supply of water ranging from 5 days to 5 months' supply.

**RAIN-FALL DURING THE FORTNIGHT** —

**READ ALSO:—**

The following report by the Closepet Sub-Division officer on the condition of the Sub-Division for the same period:—

**CROPS.**—Sugar-cane is being sown in parts of the Sub-Division.

**PRICES.**—**FOOD GRAINS.**—The price of rice has fallen a little, 8 seers being sold for a rupee against 7½ seers in the previous fortnight.

**FODDER.**—SCYEE.

**WATER-SUPPLY.**—The recent fall of rain has done much good towards the supply of water. Konnur Katté of Channapatna has received supply for 4 months along with other tanks. The Amildar of Kankanhalli reports the flow of 2 feet of water in the Arkavati River.

**LADDER.**—Silt removing from Tavarikatte reservoir at Malur continues. 100 coolies are employed.

**PUBLIC HEALTH.**—Two cases of cholera are reported in the Channapatna Range and two in the Closepet Taluk.

**EAD :—**

Diaries (of which an Abstract is given below) of Mr. S. A. Bapu Rao, Assistant Conservator of Forests on Special duty, Bangalore District, for the period from the 27th to the 31st March 1892, and for the fortnight ending 15th April 1892, received with docket No. 27, dated 22nd April 1892, from the Deputy Commissioner of Bangalore :—

**ABSTRACT.**

Mr. Bapu Rao spent much of his time in selecting lands for farms for the growth of Hariyali grass in tracts within easy distance of Bangalore. Some sites were selected but the details regarding them as to their extent and their proximity to Bangalore are under investigation by the Deputy Commissioner.

Mr. Bapu Rao explained the object and scope of the Irrigation Well Rules to the raiyats in several villages in the Hoskote and Devanhalli Taluks, and several applications received by him in those taluks are under investigation by the Amildars. He personally investigated 48 applications, 19 of these were rejected. In the others, advances would be given when funds were placed at his disposal.

Inspected the drinking water wells under construction at Avati and at Dasarpet. Hard rock was met with in the former at a depth of 45 feet; arrangement made to blast it. Only a part of the latter well had been stone-faced, but the nature of the soil required that the whole should be stone-faced.

Arranged for the repair of the drinking water well at Holeyarpalya at Devanhalli and for the removal of silt from Purnaiya's well at Sarovarpet. Brought to notice the need of a drinking water well at Balepur.

Inspected the following Relief Works :—Chikkere, Koniganbele, Bettadkere, Karhallikere, Kannamangala and Chik Jala. At Chikkere 3,000 cubic yards of earthwork had been done at 10 cubic yards a rupee, and among the coolies, there were 3 weavers of coarse bed sheets. At Koniganbele, the rate of wages was 10 $\frac{3}{4}$  cubic yards a rupee, and Rs. 40 worth of earthwork had been done. The repair of the stone revetment of the tank and the construction of a waste weir and sluice, urged by the villagers, were necessary. The atchkat of the tank was about 200 acres and the raiyats had paid Rs. 240 towards the cost of the earthwork. At Bettadkere, the majority of the coolies were Pariahs. At Karhallikere, the coolies complained of the Patel's irregularity in making payments. The Amildar promised to see to it. At Kannamangala, there was a complaint that the Patel, a resident of a different village, was not visiting the work regularly and the Amildar said that the Patel had been repeatedly warned, but in vain. One Gopalaiya, a resident of Kannamangala, was appointed to be in charge of the work. The kod of this tank was scarcely 2 feet high and may, as prayed for by the villagers, be raised by 1 $\frac{1}{2}$  or 2 feet. The stone revetment had not been carefully done, and about half of it required complete re-setting. At Chik Jala, work had been done on only 5 days during the fortnight. The Patel who was said to be lazy was warned.

Arranged measures for the relief of Weavers at Devanhalli on the system adopted at Bangalore and Doddballapur.

**NOTE.**—The Deputy Commissioner has issued orders on the several points noticed, has placed funds at the disposal of Mr. Bapu Rao for granting loans for Irrigation wells and has referred the suggestions regarding the revetment, &c., of Koniganbele and Kannamangala Tanks to the Executive Engineer.

[NOTE.—“In the statement received from the Deputy Commissioner the aggregate outlay up to the end of the fortnight under report on Nallagottapalli tank in Bagepalli Taluk was entered as Rs. 135—0—0. It should have been Rs. 135—2—0. (2) In calculating the aggregate outlay upon all the tanks in the Bagepalli Taluk, the sums spent on the works completed, viz., Jahagiregallikere and Kodannavaragallikere, were twice counted over and the amount shown as Rs. 2,764—13—0. The mistake has been rectified here and the correct amount shown in the above table.]

On 8 of the works, no coolies attended and no work was done during the fortnight. In 2 cases, their non-attendance was due to a jatre; in 2 other cases, to their being able to get higher wages elsewhere, and in one case, to the ground being hard. Against one of these, viz., the Bangavadi Chikkere, an outlay of 4 annas is shown, but this was what was paid to the tappal cooly who brought the return to the Taluk Cutcherry.

On 9 of the works, no coolies attended on the last day of the fortnight, the reason given in respect of 3 of the works being that coolies went to a jatre. One cooly shown against the Barandalli tank work in the Kolar Taluk, which was completed on the 12th April, had been employed merely to watch the crop in the bed of the tank.

Two works were completed during the fortnight, one in the Kolar Taluk and the other in the Sidlaghatta Taluk.

All the works (except one under a Shanbhog) were in charge of Patels supervised by the Tank Inspectors and Shekders and were carried on on the Arani system.

*Proceedings of the Government of His Highness the Maharaja of Mysore,  
(General),—dated 21st May 1892.*

The wages paid were 3 annas to head cooly, from 1 to 2 annas 4 pies to a male cooly, 1 anna 6 pies to a female cooly and 1 anna to a child, except in the Bowringpet and Malur Taluks where in a few cases children were paid at 1 anna 6 pies each.

The outlay on the works in Chiknayakanhalli Taluk includes a sum of Rs. 4-6-6 spent on the carriage of tools, &c, from the Executive Engineer's Office

During the fortnight under report no work was done on 16 works, out of the 115 referred to above, for the following reasons :—

3 works in the Tumkur Taluk and 2 in the Sira Taluk—the coolies did not come in consequence of the recent rains.

7 works in the Kunigal Taluk—owing to a jatre at Yedayur

1 work in the Kunigal Taluk and 1 in the Turuvekere Sub-Taluk—owing to the prevalence of cholera.

1 work in the Tiptur Taluk—stopped pending completion of another work in the neighbourhood.

1 work in the Sira Taluk—transferred to the Public Works Department.

On 6 of the works, no coolies attended on the last day of the fortnight.

12 of the works were in charge of Shaubhogs and the remaining 103 under Pateis

The management and supervision were efficient.

The wages earned were from 2 to 4 annas per man, from 1½ annas to 2 annas per woman and from ¾ to 1 anna per child.

**AMANI CULTIVATION.**—A further sum of Rs. 22-9-8 was spent on this. The aggregate outlay up to the end of the fortnight amounted to Rs. 602 7 7

No work was done during the fortnight on the Haldodkere tank by Revenue agency, as it was made over to the Public Works Department who had begun it. The outlay on it as a Relief work was Rs. 72-12-0.

In the Tiptur Taluk, the Attikatte tank work was stopped pending the completion of the Chikkere in the same village, and hence there was no outlay on it during the fortnight under report.

On 3 of the works in the Kunigal Taluk and one in the Gubbi Taluk, no coolies came to work during the fortnight under report. In the Kunigal Taluk, the absence of the coolies was owing to a jatre and a car festival.

On 3 works in the Turuvokere Sub-Taluk, no coolies attended on the last day of the fortnight.

On the Sujikal tank work in the Haliyar Sub-Taluk which was opened during the fortnight, a sum of Rs. 15—15—6 was spent for getting the necessary tools from the Public Works Department stores, but there was no progress and during the fortnight 85 of the works were in charge of Patels and the remaining 15 under Shanbhogs.

The wages earned were 3 to 4 annas per male cooly and 2 annas per female cooly. They were sufficient.

The management and supervision were efficient.

AMANI CULTIVATION.—A further sum of Rs. 58—8—0 was spent on Amani cultivation in tank beds. The aggregate outlay on this up to the end of the fortnight under report was Rs. 580—13—11.

The following report on the condition of the Kolar District for the fortnight ending 30th April 1892, received with docket No. 511—121, dated 5th May 1892, from the Deputy Commissioner of Kolar :—

1. **RAIN-FALL.**—Towards the end of the fortnight, rain fell more or less throughout the District. Some of the tanks are reported to have received a small supply of water lasting from 8 days to a month. If the rain had continued, immense good would have been the result.
2. **STATE OF CROPS.**—Standing crops derived some benefit by the recent rains. Ploughing operations are progressing.
3. **SUPPLY OF FOOD GRAINS.**—Markets are well supplied.
4. **WATER-SUPPLY.**—Scarcity in this respect is somewhat mitigated. The progress of deepening old and sinking new wells appears to be slow owing to the services of Waddars not being available as the excavation of several irrigation wells are being undertaken by them.
5. **FODDER-SUPPLY.**—Still scarce. Leaves of trees, stumps of aloes and date leaves are used as fodder for cattle. General Assistant Commissioner states that the raiyats, though persuaded, are unwilling to feed their cattle with prickly-pear, for fear of unfavorable after effects.
6. **PRICES.**—Almost steady.
7. **DEMAND FOR LABOR.**—Coolies on the Relief Works are falling off in number owing to agricultural operations having commenced.
8. **GENERAL CONDITION.**—Is improving.

The following report on the condition of the Chikballapur Sub-Division from the Sub-Division Officer for the same period :—

1. **RAIN-FALL.**—Towards the end of the month, showers of rain fell throughout the Sub-Division more or less heavy. The rain-fall was heaviest at Chikballapur where the quantity measured on the 26th and the 27th was 3 inches and 40 cents. Several tanks have received water-supply of varying quantity. Ploughing has been commenced and is briskly carried on. The anxiety of the people has been somewhat allayed. The scarcity of water for cattle is, for the present, slightly mitigated in some parts. If these showers should be followed by others, the supply of fodder may improve.
2. **STANDING CROPS.**—Jola, sugar-cane and paddy have much benefitted by the rain-fall. Sugar-cane planting will soon be completed. Jola is being reaped in some parts.
3. **MARKET AND PRICES.**—The markets are fairly well supplied and the prices are stationary, except in a few places where they show a very slight tendency to fall.
4. **DEMAND FOR LABOR.**—Relief Works and Irrigation wells and private wells are affording ample labor. The number of coolies on Relief Works on the last day of the fortnight in the Bagepalli Taluk was 173.
5. **HEALTH AND GENERAL CONDITION.**—The public health continues to be good. The cattle are free from epidemic diseases, though suffering from insufficiency of fodder. The recent rain-fall has slightly cheered the prospects.

2 STATE OF CROPS.—

- (a) STANDING CROPS.—Sugar-cane in the Shimoga, Channagiri and Honnali Taluks as well as in the Kumsi Sub-Taluk is in a fair state.
- (b) CROPS HARVESTED.—All other crops, such as rice, &c., have been harvested.
- (c) CULTIVATION.—In the Sagar Taluk, agricultural operations have been commenced for sowing paddy.
3. SUPPLY OF FOOD GRAINS.—Sufficient in all the taluks; markets are generally well supplied by imports and local stock; it is reported that raiyats have paddy in store in the Nagar and Tirthahalli Taluks.
4. SUPPLY OF WATER.—Sufficient in all the taluks except in parts of the Channagiri Taluk. Its want is felt in the Tyavanige, Basavapatna and Sante Benmur Maganis.
5. FODDER FOR CATTLE.—Fair in the Shimoga, Honnali and Shikarpur Taluks. Scanty in the Channagiri Taluk. Sufficient in the other Taluks.
6. PRICES.—
  1. RICE.—Rising in the Kumsi Sub-Taluk, Honnali and Sorab Taluks. Falling in the Channagiri Taluk and stationary in the Shimoga, Sagar, Shikarpur, Nagar and Tirthahalli Taluks.
  2. RAGI.—Rising in the Sorab Taluk; falling in the Shimoga, Channagiri, Shikarpur and Tirthahalli Taluks, and stationary in the Honnali, Sagar and Nagar Taluks.
  3. JOLA.—Rising in the Sorab Taluk; falling in the Shimoga, Channagiri and Shikarpur Taluks; and stationary in the Kumsi Sub-Taluk and Honnali Taluk.
7. DEMAND FOR LABOR.—People find labor. Relief Works such as tank repairs, &c., in the Channagiri and Honnali Taluks are in progress.
8. GENERAL CONDITION.—Generally fair; cholera is prevalent in all the taluks except Sagar, Nagar, Tirthahalli and Kumsi. Fever in some parts of the Sagar Taluk.

To the total aggregate outlay shown above must be added a sum of Rs. 326—8—0, being the outlay on the works already completed, *viz* —removal of silt from and deepening of the Lal-Bagh tank and the filling of pits at Bannerghatta in the Anekal Taluk thus the outlay on the works in the Bangalore District up to the end of the fortnight under report amounts to Rs. 5,092—11—3.

On one work in each of the Taluks of Dodballapur and Nelamangala and in the Channarayana Sub-Taluk, no work was done during the fortnight under report as coolies were not available. The coolies on the work referred to above in the Dodballapur Taluk resorted to Irrigation Well works, where they were able to get higher wages.

On one work in the Bangalore Taluk, *viz* :—repairing the Kadamalleswara temple road, no payments were made as the work (given on contract) was not being satisfactorily carried out.

Most of the works were in charge of Patels and were carried on on the Amani system. A few of them (mostly in the Dodballapur Taluk) were given out on contract.

The wages paid were from 2 annas 4 pies to 4 annas per man, from 1 anna 6 pies to 2 annas 4 pies per woman and from 1 anna to 2 annas per child.

II. DRINKING WATER WELLS.—The following table shows the number of wells sanctioned the number completed and the number under construction :—

The following report on the condition of the Tumkur District, for the fortnight ending 30th April 1892, received with letter No. 1162, dated 7th May 1892, from the Deputy Commissioner of Tumkur :—

**REPORT.**

- I. **HARVEST.**—The following crops were harvested :—  
     Jola in the Taluks of Tumkur, Sira and Pavagada.  
     Sugar-cane in the Taluks of Tumkur and Kunigal.  
     Sosi ragi in Sira Taluk and paddy under Gubbi, Jodi Timlapan, Sujikalla, Devikere and Tekalvatti Tanks and also in some parts of Tumkur and Pavagada Taluks.
- II. **STANDING CROPS.**—Are in fair condition. Those that were fading away for want of water are now improving, on account of the recent rains.
- III. **FOOD GRAINS.**—Prices remain stationary generally. The supply is sufficient.
- IV. **FODDER.**—Cattle die in pretty large numbers owing to the general scanty supply of fodder. Leaves of ala, goni, atti and date trees are used as fodder wherever available. In course of a few days, green grass may come up as there has been some rain-fall.
- V. **WATER.**—Scarcity of water has diminished owing to the recent rains. Fresh water wells dug at Government cost are also proving very useful.
- VI. **DEMAND FOR LABOR.**—People are engaged in tilling their fields ; so there is not so much demand for labor as there was, just before the rains.
- VII. **GENERAL CONDITION.**—One Muhammadan woman that came from Sivasamudram died of cholera at Tumkur on the 29th ultimo. There has been no fresh attack. Cholera has almost disappeared from the Turuvekere Sub-Taluk but has made its appearance in the Hoblis of Nonavinkere and Dabbegatta in the Tiptur Taluk. There have been some fatal cases. In other parts of the District, the condition of the people is satisfactory.

The following report on the condition of the Maddur, Sira and Pavagada Taluks, for the same period, received with letter No. 1169, dated 10th May 1892 :—

**REPORT.**

- HARVEST.**—Has now been completed.
- STANDING CROPS.**—The Vaisakha paddy and sosi ragi are in a better condition.
- CULTIVATION.**—There has been some rain in all the 3 taluks of this range during the fortnight, sufficient to secure supply of water in good many tanks for periods ranging from 15 days to 2 months. This has enabled the raiyats to plough their lands for cultivation. Although the usual crop to be sown is ragi, the raiyats in several places have preferred mungari cholam in the hope of realizing a crop at a comparatively earlier date. The result of the past cultivation of the tank beds and other moist lands with cholam appears to have convinced the raiyats of its advantages.
- PRICES.**—Are stationary. Markets are receiving fair supply of food grains. Rice sells from 7½ to 8 seers a rupee and ragi from 16 to 20 seers a rupee.
- DRINKING WATER.**—Difficulty for drinking water has begun to lessen. Well works are being pushed on in all the taluks. Three-fourths of the work has been done in many places. The delay in completion is due to the difficulty in getting the services of Waddars for stone work as they have been employed by raiyats by competition for their irrigation wells, for which liberal advances have been made.
- CATTLE FODDER.**—Stalks of cholam are available in some places.
- GENERAL CONDITION.**—Complaint of want of employment is not at all heard anywhere. Takavi wells and other private works have drawn labor largely. The labor employed on our Village Relief works represents a small percentage. The Sira Amildar reports that some people in the neighbouring villages of the Anantapur District have employed themselves on the Tadakalur Relief Work in his Taluk.

The following letter No. 147, dated 9th May 1892, from the Deputy Commissioner, Mysore District, reporting on the present condition of the District :—

I have the honor to report for the information of Government that the rain-fall gauged at Head-quarters of the different taluks in the District proper during the month of April last are as given in the margin. Many of the tanks and drinking water kattes in the Nanjangud, Tirumakudlu-Narsipur and Mysore Taluks have received a full supply of water, especially the big tanks of Arsinkakere also called Narsambudhi and Holepura in the Nanjangud Taluk have discharged over kodi for the last one week. The pits dug as Relief Works have almost all been submerged, though, as they had all been checked previously, there is no doubt as to the correctness of the measurements of work done.

2. The timely and copious rain-fall we have had from the beginning of this new year and the thriving condition of the Munger cholam and other dry crops in several taluks, are so far very hopeful signs, and it is hoped that these are indications of a coming prosperous season. I have issued orders to close Relief Works in the District proper as laborers who used to attend them are reported to have taken to their usual avocations.

No. D. 458, DATED CAMP MYSORE, 21ST MAY 1892.

ORDER THEREON.—The report is satisfactory. The action of the Deputy Commissioner in closing the few Relief Works which had been recently started in the Mysore, Nanjangud and Gundlupet Taluks, is approved.

\*In the statement for the Davangere Taluk the outlay during the fortnight on other taluks is shown as 2-9-57-4, whereas it ought to be 2-9-55-7-4 (the 4 at it must be on the other taluks).  
†The aggregate outlay on the Davangere taluk comes to 68 and not 77 entered in the statement. Hence the aggregate outlay on the Chitaldroog Taluk is 690-9-6 and not 700-9-6.

\*In the statement for the Davangere Taluk the outlay during the fortnight on other works is shown as 2 0 56—7—4, whereas it ought to be 2 0 33—7—4 (i.e. at it must be the other half's).  
†The aggregate outlay on the Kallakere tank comes to 63 and not 73 entered in the statement. Hence the aggregate outlay on the Chitaldroog Taluk is 690—9—6 and not 700—9—6.

On the Bharmasagar tank in the Challakere Taluk and the Madenakankote tank in the Hiriyur Taluk, no work was done during the fortnight under report. In the former case coolies went to work on irrigation wells in their village and the neighbouring village of Bommasandra. In the latter case there was no demand for labor.

Of the 6 works in the Davangere Taluk, one (the Kumbalur tank work) was struck off the list of Relief Works as directed by Government in Proceedings No. D 407, dated the 28th April 1892. On 3 others no coolies attended on the last day of the fortnight as they went to work in the fields after the recent fall of rain, while as regards the remaining two, no information had been supplied by the Amildar to whom strict orders had been issued. All the works, (with the exception of one under Shanbhog) were under Patels and, from enquiries made by the Deputy Commissioner and the reports received by him from the Assistant Commissioners, they were well managed and supervised.

The wages paid were 2 annas 3 pies per man, 1 anna 6 pies per woman and 1 anna per child.

Notes of Inspection of the Dodballapur Taluk received from the Deputy Commissioner, Bangalore, stating (in paragraph 13) that he had found a Madiga of middle age and his son aged about 12 years to be starving.

Letter No. D. 374, dated 22nd April 1892, to the Deputy Commissioner, Bangalore District, enquiring to what village the men belonged, whether there were no Relief Works near at hand, whether they wilfully refused to work, and, if not, under what circumstances they were allowed to become famished.

Memo No. 43, dated 9th May 1892, submitted by the Deputy Commissioner, explaining that the Madiga referred to, named Hanuma, settled himself at Chikka Devanapura about 5 years ago and has a wife, a widowed daughter with two infant children, 2 sons aged 9 and 7 years and another daughter aged 5 years, all depending on him; that he was subject to asthma and became worse in August last; that his wife

(General),—dated 21st May 1892.*

too was laid up with fever about the same time; that the widowed daughter was thus the only working member, and shackled as she was with the care of the infants and her sick parents, she was only able to earn about 2 seers of ragi at irregular intervals; that the whole family was obliged to live on the kanji prepared from that scanty supply and there had thus been gradual starvation since August last and sickness due to it; that none in the family was in a fit state to work on the Relief Work, which was opened in the village on the 28th January last; that gratuitous relief was being given to the family since the 27th March: that the wife and daughter had sufficiently recovered to be employed on Relief Work, but that Hanuma and children, though improved in health, were in need of relief for some time longer.

**No. D. 460, DATED CAMP MYSORE, 21ST MAY 1892.**

**ORDER THEREON.**—It is evident that the village authorities failed to perform an important duty in omitting to provide charitable relief to this poor family, or to bring the matter to the notice of higher authorities in view to the distribution of Government gratuitous relief. It is fortunate, however, that the family have been saved by the timely extension of Government gratuitous relief.

The prescribed doles are  $\frac{1}{2}$  a seer of rice and 3 pies, or  $\frac{3}{4}$  seer of ragi and 3 pies.

Besides the above, there is a private institution organized by Mr. A. Sreenivasachari and kept up from private contributions in which relief is given gratuitously to, at present, about 367 families of different castes. The contributions up to the 30th April 1892 amounted to Rs. 1,873 and the expenditure up to the same date to Rs. 1,566—2—5. A loan of Rs. 209 had been raised on the understanding that it should be liquidated from receipts for the month of May. The recipients are selected by the President and Executive Members of the Committee. The distribution of doles is undertaken by 2 of the Executive Members with the aid of a Mutsaddi and 2 peons. Each family is given from  $\frac{1}{2}$  to  $1\frac{1}{2}$  seers of rice or ragi and the quantity distributed daily is from 110 to 115 seers of rice and from 130 to 150 seers of ragi.

Letter No. 32—E 6, dated 10th May 1892, from the President, City Municipal Commission, Bangalore, submitting, with reference to the order in Proceedings No. D. 289 dated the 30th March 1892, new estimates aggregating Rs. 19,790 for filling up the Fort Trench West, deepening the bed of the Sampangi Tank and excavating gunta in Karanji Tank, and stating that the suggestions made by Mr. Scaldwell have been adopted

No. D. 462, DATED 21ST MAY 1892.

ORDER THEREON.—The estimate for Rs. 4,828 for deepening the bed of the Sampangi Tank is sanctioned.

2. As regards the estimate for Rs. 9,815 for filling up the Fort Trench it is noticed that the opinion of Mr. Scaldwell regarding the rate has not been obtained, after furnishing the information regarding the quantity of earth that has to be carted and the lead, called for by him. The Executive Engineer of the City Municipality states that extra rate may be settled after the glaciis earth is used up, and it is probably intended to submit a supplemental estimate. Such a course is obviously undesirable. The papers should again be sent to Mr. Scaldwell for his opinion, with the information required by him, and the estimate, if necessary, revised.

3. The estimate for excavating gunta in the bed of the Karanji Tank is not signed by the Executive Engineer of the Municipality, and it is not clear whether it was sent to Mr. Scaldwell with the information he required, and was finally approved by him.

Letter No. 154, dated 10th May 1892, from the Deputy Commissioner, Mysore District, explaining, with reference to paragraph 2 of Proceedings No. D. 419, dated 4th idem, that the Kunchigars of Nagamangala live chiefly by the manufacture and sale of brass lamps, vessels and toys of various descriptions, that the demand for these wares has become slack owing to high prices of food grains, and the case of Kunchigars is similar to that of Weavers who do not find a sale for their cloths, and that it was his intention to devise a scheme of relief for them by offering to purchase from them articles for which they might find no sale in the ordinary market and to sell them afterwards as soon as trade revives.

No. D. 463, DATED CAMP MYSORE, 21ST MAY 1892.

ORDER THEREON.—Under the circumstances represented, the proposal of the Deputy Commissioner to afford relief to the Kunchigars of Nagamangala is approved. A sum of Rs. 1,000 will be placed at his disposal for this purpose, as requested in the above letter.

The following letter No. 37, dated 11th May 1892, from the Officer in charge of the Amrut Mahal Department:—

With reference to your letter No. D. 424 of the 5th instant, I have the honor to inform you that in accordance with instructions contained in the Proceedings of Government, No. D. 37 of the 19th December last, the Amrut Mahal kavals in question were thrown open to the village cattle only for a period of 3 months from 1st January to 31st March 1892, no fixed time having been given in the order. But as the Dewan wishes that this concession should be extended for a further period of 3 months (up to 30th June 1892), orders will be issued accordingly.

2. I must however point out that the kavals assigned to the Amrut Mahal Department for the use of the Government cattle have never been interfered with by the Revenue authorities even during the famine of 1876-77, and that if such requisitions are made especially when the seasons are bad, the Government cattle must suffer to some extent.

3. I trust, therefore, that at the end of the above period the kavals will be handed back to this Department and that instructions will be issued to the Revenue authorities to render every possible assistance to the subordinates of this Department in preserving the grass in these kavals from 1st July 1892, as otherwise it will be difficult to maintain the Government cattle in good condition during the current year.

-----  
No. D. 464, DATED CAMP MYSORE, 21ST MAY 1892.

ORDER THEREON.—The attention of Deputy Commissioners is drawn to paragraph 3 of the above letter.

2. It is hoped the recent rains, which in several parts of the Province were copious, will enable raiyats to find pasture for their cattle near their own villages a few days hence, and the Government trust that the Deputy Commissioners may be in a position to give back a number of the kavals earlier than the end of June. The Deputy Commissioners should take the necessary steps, as early as practicable, for the withdrawal of raiyats' cattle from the kavals lent by the Amrut Mahal Department, and for every assistance being rendered by local officials to the Amrut Mahal Department for the preservation of the grass in such kavals for the use of the Government cattle. No such kaval should be regarded as open to raiyats' cattle after 30th June next.

Besides the above, a sum of Rs. 580 in the Bangalore Taluk and Rs. 100 in the Hoskote Taluk were advanced on account of the second instalments of loans previously granted. No applications for loans were received from the Magadi Taluk. In other taluks, loans had been sanctioned up to the extent of more than Rs. 32,000. The works were all progressing and more than a dozen wells had already been completed and were in operation. In the majority of cases, more than half the estimated quantity of work had been done and the remaining work was being pushed on.

There was very little demand for loans except in the Dodballapur and Devanhalli Taluks, which are assigned to Mr. Bapu Rao.

Nearly ten thousand rupees had been sanctioned in each of the Taluks of Nelamangala and Bangalore, and a few more applications were coming in slowly. There were very few applications from the Kankanhalli and Closeppe Taluks. The Amildar of Kankanhalli explained that people were laboring under the impression that at the next Survey Settlement, the assessment would be increased wherever cultivation was carried on from Irrigation Wells. Mr. Kumarasami Naik impressed upon the people that such was not the intention of Government and drew their special attention to the guarantee given in Section 11 of the rules.

STATE OF CROPS.—STANDING CROPS.—Kor-paddy under channel fed tanks in the Tirumakudlu-Narsipur Taluk, Lingambudhi tank, Mysore Taluk, and in the French Rocks Sub-Division, reported to be in good condition. Sugar cane under channel fed tanks in T. Narsipur Taluk and the French Rocks Sub-Division are doing well. Black-gram and horse-gram under channels in T. Narsipur and Yedatore Taluks and in the French Rocks Sub-Division and Cholam in Nanjangud and Mysore Taluks and mulberry in the T. Narsipur Taluk, javari and togari in the French Rocks Sub-Division are also reported to be thriving.
2. SEEDS SOWN.—Cholam has been sown in almost all parts of the District. Sowings of ragi in Nanjangud and togari and oil-seeds in T. Narsipur, Chamrajnagar and Gundlupet Taluks also reported. Some cotton has also been put down in the last 2 Taluks.
3. SUPPLY OF FOOD GRAINS.—Markets were as usual well supplied by local stock and imports.
4. SUPPLY OF WATER.—Good. Tanks and kattes have received a considerable supply of water during the recent rains. Water was also tapped in most of the wells that are under progress.
5. FODDER.—Available in all the Taluks. Owing to recent rains, the aspect of the season has begun to change. Cattle are still taken to jungles of Heggaddevankote Taluk from parts of Nanjangud Taluk.
6. RISE AND FALL OF PRICES.—Prices slightly falling.
7. DEMAND FOR LABOR.—Work not sought for by raiyats. Ordinary cooly class alone go to Relief Works in progress and works carried on by Public Works Department. The raiyats are busily engaged in agricultural operations in all taluks.
8. GENERAL CONDITION.—Cholera still lingers in most of the taluks of the District.

The following report on the condition of the Kadar District for the fortnight ending 10th May 1892, received with No. 9, dated 17th idem, from the Deputy Commissioner of Kadar :—

1. STATE OF CROPS.—The standing crops, viz., paddy (Vaisakha) and sugar-cane are in a good condition. The maize plants in the bed of the Iswarhalli Tank in the Chikmagalur Taluk are thriving.
2. SUPPLY OF FOOD GRAINS.—The markets were well supplied with the chief food grains viz., ragi and rice.
3. SUPPLY OF WATER.—Good in all parts. Well works sanctioned from District Funds and Local Funds General are in progress. The recent rains have supplied water to the tanks and small kattes in the District.

*Proceedings of the Government of His Highness the Maharaja of Mysore,  
(General),—dated 21st May 1892.*

4. FODDER FOR CATTLE.—There is a fair supply of grass consequent upon the recent rains.

5. RISE AND FALL OF FOOD GRAINS:—

The following report on the condition of the Bangalore District for the fortnight ending 15th May 1892, received with docket No. F. D. 47, dated 18th idem, from the Deputy Commissioner of Bangalore:—

1. AGRICULTURE AND CROPS.—Sugar-cane in parts of Bangalore, Devanahalli, Doddballapur, Closepet and Magadi Taluks are reported to be in good condition. Raiyats are reported to be engaged in ploughing fields and carting manure. Panaji paddy, gingelly and baraka reported to be sown in parts of the Bangalore Taluk.
2. FODDER AND CATTLE.—Owing to recent showers, grass is just sprouting. Cattle are being still fed on leaves and taken to Government Forests and Plantations wherever such facilities exist. *Dod-roga* is stated to prevail in Anekal and cattle reported to be dying from it, and for want of sufficient fodder in Doddballapur Taluk.
3. WATER-SUPPLY.—There has been a good fall of rain. Following is the quantity gauged at Taluk head-quarters during the fortnight:—

|              |     |     | Inches. | Cents. |
|--------------|-----|-----|---------|--------|
| Bangalore    | ... | ... | 4       | 0      |

The following report on the condition of the Closepet Sub-Division for the same period received with the above:—

1. STATE OF CROPS.—Sugar-cane is being planted in places where tanks have received supply of water in the Taluk of Closepet. Owing to the recent rains, agricultural operations such as ploughing, manuring fields are briskly going on everywhere.
2. PRICES OF FOOD GRAINS.—Supplies in the markets abundant and prices stationary.
3. FODDER.—Grass has sprouted and if the favorable season continues, it will be abundant in a month.
4. WATER SUPPLY.—Most of the tanks received supplies for one to four months, and there is flow of water in the Arkavati stream.
5. GENERAL HEALTH.—Fair.
6. LABOR.—No demand for labor. Tavarekatte work in the Channarayana Range is approaching completion. Raiyats are employed in field work.

READ:—

The following report on the condition of the Chitaldroog District for the fortnight ending 15th May 1892, received with docket No. 777—733, dated the 19th idem, from the Deputy Commissioner of Chitaldroog —

In the fortnight under report, there has been a good fall of rain in all the Taluks of the District and raiyats are everywhere busily engaged in ploughing and sowing their lands. Tanks have generally received supplies of water varying from 2 to 3 months and all the Amildars report that there has been a change for the better in the prospects of the season.

The quantity of rain gauged during the fortnight at the several Taluk Head-quarters of the District was as follows:—

| Taluks         |     |     |     |     |     | Inches. | Cents. |

2. STATE OF THE CROPS.—The standing crops under kapile wells and streams are in fair condition throughout the District.

3. In the Chitaldroog Taluk, Vaisakha paddy and sugar-cane are generally in fair condition. Vaisakha paddy was harvested, the out-turn being estimated at 8 annas in the rupee. Cholam, yellu (sesamum) and easter seed have been sown.

4. In the Davangere Taluk, Vaisakha paddy and sugar-cane are in fair condition. Cholam, castor seed and yellu were sown. Paddy and sugar-cane were harvested, the out-turn being estimated at 6 annas in the rupee.

5. In the Holalkere Taluk, Vaisakha paddy was harvested and the out-turn is estimated at 8 annas in the rupee. Castor seed and yellu have been sown.

6. In the Jagalur Taluk, Vaisakha paddy, cholam and navane below kapile wells were harvested, the out-turn being estimated at 12 annas in the rupee.

**Proceedings of the Government of His Highness the Maharaja of Mysore,  
(General),—dated 27th May 1892.**

7. In the Taluks of Chhalkere, Hiriyur and Molakalmuru, Vaisakha paddy, cholam and navane below tanks and wells were harvested and the out-turn is estimated at from 6 to 8 annas in the rupee. Cholam, castor seed, yellu, black gram and harka were sown.

8. **SUPPLY OF FOOD GRAINS.**—The supply of food grains is generally sufficient in all the taluks of the District. Ragi and cholam were exported to various places in British Territory from the Taluks of Holalkere and Davangere.

9. There has been no marked change in prices during the fortnight under report.

10. The market prices of the different food grains at the Taluk Head-quarters of the District for the present and past fortnights are given below :—

The markets were generally well supplied.

11. **SUPPLY OF FODDER AND WATER.**—In the Taluks of Chitaldroog and Holalkere, the supply of fodder is generally sufficient. Raiyats from the Taluks of Hiriyur and Chhalkere come and purchase cholam straw from raiyats in the Chitaldroog Taluk.

12. In the Davangere Taluk, there is a moderate supply of fodder, while in the Taluks of Hiriyur, Chhalkere and Molakalmuru and parts of Jagalur scarcity of fodder is much felt, cattle being fed on date and other leaves.

13. The supply of water is generally sufficient in all the Taluks of the District, and in parts of Hiriyur where it was scanty, the recent rains have supplied the want to some extent.

14. **DEMAND FOR LABOR.**—The demand for labor is slack as the people are engaged in field work. There is sufficient employment available for those in need of work not only on Relief Works but also on Irrigation wells and Saguvadi kattes.

15. **RELIEF TO WEAVERS.**—During the fortnight under report, cloths to the value of Rs. 630—5—2 were purchased from the Weavers at Molakalmuru.

**GENERAL CONDITION OF THE DISTRICT.**—The general condition of the people in the District is good. Cattle, however, are in the same condition as before.

READ :—

The following report on the condition of the Shimoga District for the fortnight ending the 15th May 1892, received with docket No. 202—193, dated 20th idem, from the Deputy Commissioner of Shimoga :—

1. **STATE OF CROPS—**

(a) **STANDING CROPS.**—Sugar-cane and paddy are in a fair state in all the Taluks except Tirthahalli where there are no standing crops.

(b) **CROPS HARVESTED.**—None.

(c) **SEEDS SOWN.**—Sesamum and green gram in the Honnali Taluk and paddy in the Kunsi Sub-Taluk.

In the Shikarpur and Nagar Taluks, agricultural operations have commenced for the dry and Kartika crops.

2. **SUPPLY OF FOOD GRAINS.**—Sufficient; markets were generally well supplied, except at the small centres of Tattur and Mudi in Sorab and Chikar in Honnali owing to cholera.

3. **SUPPLY OF WATER.**—Sufficient, except in the affected parts of the Channagiri Taluk.

4. **FODDER FOR CATTLE.**—Sufficient in the Malnad Taluks and scanty in parts of the Shimoga, Channagiri, Honnali and Shikarpur Taluks.

5. **PRICES.—**

1. The price of rice is rising in the Shimoga, Honnali and Sagar Taluks, falling in the Shikarpur Taluk and stationary in the other Taluks of the District.

2. The price of ragi is rising in the Shimoga, Shikarpur and Tirthahalli Taluks, falling in the Channagiri Taluk and stationary in the other Taluks of the District.

3. The price of jola is falling in the Channagiri Taluk and stationary in the Shimoga, Honnali and Shikarpur Taluks and Kunsi Sub-Taluk.

6. **DEMAND FOR LABOR.**—People find labor. Relief Works are in progress in the Channagiri and Honnali Taluks.

7. **GENERAL CONDITION—**

(a) **PUBLIC HEALTH.**—Generally good. Cholera still exists in parts of the Honnali, Shikarpur and Sorab Taluks. There are also a few sporadic cases in the Shimoga, Channagiri and Sagar Taluks. Fever is prevalent in some parts of the Sagar Taluk.

(b) **RAIN-FALL.**—There was rain in all the Taluks of the District during the fortnight under report, and the quantity gauged is given in the margin. The rain was very useful and enabled the raiyats to commence their agricultural operations. In the Channagiri, Honnali and Sorab Taluks, some tanks have received a small supply of water.

*Proceedings of the Government of His Highness the Maharaja of Mysore,  
(General),—dated 27th May 1892.*

The following report on the condition of the Kolar District for the fortnight ending the May 1892, received with docket No. 754—172, dated 21st idem, from the Deputy Commissioner of Kolar:—

1. **RAIN-FALL.**—There was rain all over the District, except in Mulbagal and Malur. The rain-fall gauged at Bagepalli was 2 inches and 60 cents. Some tanks in the Bagepalli, Goribidnur and Siddaghatta Taluks have received a supply of water lasting from 8 days to a month. The prospects of the season have somewhat improved, but more rain is wanted.
2. **STATE OF CROPS.**—Standing crops are reported to be generally in a good condition. Ploughing operations continue; harka, saffe, gingelly seed, jola and punaji paddy were sown in parts.
3. **SUPPLY OF FOOD GRAINS.**—Markets are generally well supplied.
4. **WATER-SUPPLY.**—Drinking water is procurable. Deepening of old and excavation of new wells continue.
5. **FODDER-SUPPLY.**—Scarce. Leaves of trees are still used as fodder for cattle. If rains continue, good grass may be expected.
6. **PRICES.**—There is a slight fall in the prices of ragi and jola.
7. **DEMAND FOR LABOR.**—The number of coolies attending Relief Works has a tendency to fall as laboring classes find work on fields.
8. **GENERAL CONDITION.**—Is improving.

ALSO:—

The following report on the condition of the Chikballapur Sub-Division for the same period ed with the above:—

- RAIN-FALL.**—During this fortnight, copious showers of rain fell throughout the Sub-Division. Almost all the tanks and kantes have received water-supply varying from 10 days to three months.
- AGRICULTURAL OPERATIONS.**—Raiyats are busily engaged in ploughing their dry lands. Jola has been harvested. The standing sugar-cane crop is doing well, the recent rain-fall having greatly benefited it where it was suffering from deficient water-supply. Rice crop under Talpargis is flourishing.
- FODDER AND WATER FOR CATTLE.**—It will be some time before the recent rains will induce grass to spring up. Till then, difficulty for fodder will continue. Date leaves and leaves of other trees are used for fodder in parts of Goribidnur, Gudibanda and Bagepalli. The distress from deficiency of water has been allayed. There is no sickness among cattle.
- MARKET AND PRICE.**—The markets in the Sub-Division are well supplied. The prices of the principal food grains—ragi and jola—have slightly fallen.
- RELIEF WORKS.**—The attendance on Relief Works show a falling off and will diminish still further with the commencement of agricultural operations. The number on the Relief tank works on the last day of the fortnight in the Sub-Division was 282. Six persons were engaged in the collection of tangadi bark as a Relief Work.
- GENERAL CONDITION.**—Anxiety has to a large extent been allayed and the prospects are hopeful. Public health continues to be good.

The following report on the condition of the Hassan District for the fortnight ending the 15th May 1892, received from the Deputy Commissioner of Hassan:—

**CONDITION OF CROPS.**—Sugar-cane and paddy in the Taluks of Hassan and Channarayana are in good condition. Mungar sesamum and jola are in fair condition in the Arsikere and Arkalgud Taluks. Ragi, jola and sesamum are sown in some Taluks.

**PRICES OF FOOD GRAINS.**—Stationary. Markets are well supplied.

**SUPPLY OF WATER.**—There has been rain-fall in all the Taluks. The rayats are busily engaged in sowing operations. Most of the tanks in the District have received a good supply of water which in some tanks will last for 3 months.

**FODDER FOR CATTLE.**—Generally available. Date leaves are still used as fodder in the Arsikere Taluk. Green grass is also now available in all the Taluks.

**PUBLIC HEALTH.**—Generally good. Small-pox is still prevalent in some villages of the Belur Taluk. Cholera is prevalent in the Taluks of Hassan, Arsikere, Channarayana, Hole-Narsipur, Arkalgud and Grama Sub-Taluk. Amildars have been ordered to attend to village sanitation.

**DISEASE AMONG CATTLE.**—Murrain is still prevalent in Halebidu and Madihalli Hoblis of the Belur Taluk.

**DEMAND FOR LABOR.**—Is great and labor is not easily obtainable.

\* Includes a sum of Rs. 22-7-4 being allowance paid to the Patel in charge of the Hanadavalli tank from 2nd January 1892 at Rs. 6 per month and pay of the coolies employed to irrigate the crop in the bed of the said tank and to watch the same.

The increase in the number of works in the Srinivasapur Sub-Taluk was owing to the fact that 4 of the works which were reported in previous returns as having been completed were found to require some more work, and hence were included in the works under progress.

On 18 the works, no coolies attended on the last day of the fortnight, and on 7 works, no work was done during the fortnight. On one of the latter (in the Mulbagal Taluk), the coolies did not attend because the soil was hard, and on another (in the Gudibanda Sub-Taluk), because they were able to get higher wages elsewhere. Two of the works were stopped as the tank received a supply of water.

All the works were in charge of Patels and were carried on on the Amani system. The wages paid were from  $1\frac{1}{2}$  to 3 annas per man,  $1\frac{1}{2}$  annas per woman and 1 anna per boy. In the Malur Taluk, however, the boys were paid at one anna and half each.

[NOTE.—1. The outlay on works in the Dodballapur Taluk during the fortnight under report was Rs. 342—1—5 and not Rs. 340—1—5 as stated in the return received.

2. The aggregate outlay on the Kadur-Hirekere work is Rs. 1,205—7—0 and not Rs. 1,203—7—0. Hence the aggregate outlay in the whole taluk is Rs. 2,812—9—1.

3. The aggregate outlay on the Kottanahallikere in the Channarayana Sub-Taluk up to the end of the fortnight under report is Rs. 187—2—0 and not Rs. 181—2—0. Hence the aggregate outlay in the whole Sub-Taluk is Rs. 466—0—9.]

On 4 works (3 in the Dodballapur Taluk and 1 in the Devanhalli Taluk) work was stopped during the fortnight as the tanks received a small supply of water. Coolies on these were attending other Relief Works.

Two other works in the Devanhalli Taluk were also stopped. For one of them coolies were not available.

Only one work was under progress in the Bangalore Taluk. Of the other works, earth work on three had been completed, and as regards the remaining three, measurements had not been taken yet. All the works in the Dodballapur Taluk were carried out on the contract system, while in the Devanhalli Taluk all except one were carried out on the Amani system. In the other taluks, a few were carried out on the Amani system and the others on the contract system.

Fourteen of the works were in charge of Patels, 8 under Shanbhogs, 2 under contractors and 1 under a Pensioned Amildar. The Amildars and Sheristadars supervised the works.

The wages paid were from 2 annas 4 pies to 4 annas per man, from 1½ to 2 annas per woman and 1 anna per boy.

GRATUITOUS RELIEF.—Thirty-nine persons in the Dodballapur Taluk were given grain doles as they were quite destitute, incapacitated and helpless.

On 17 works as noted in the margin, no work was done during the fortnight under report, as the coolies were engaged in agricultural operations after the recent fall of rain.

READ :—

Letter No. 118, dated 10th May 1892, from Mr. B. G. Krishnaiengar, Assistant Commissioner on Special duty, reporting that he has temporarily appointed a Mestri for supervision of Irrigation wells in the Tumkur Taluk on a salary of Rs. 20 per mensem, and recommending that this and all other Mestris appointed in the Tumkur and Chitaldroog Districts up to date be granted a horse allowance of Rs. 5 each per mensem.

No. D. 491, DATED CAMP MYSORE, 31ST MAY 1892.

ORDER THEREON.—The appointment made by Mr. Krishnaiengar of a temporary Mestri for the Tumkur Taluk on a salary of Rs. 20 per mensem is approved. This Mestri will be expected to supervise the construction of Irrigation wells in the Tumkur and Gubbi Taluks, as the number of loans for wells sanctioned in the latter Taluk is very small.

2. Mestris employed on similar duty in the Kolar District are given Rs. 15 pay and Rs. 10 horse allowance, total Rs. 25 per month. Mr. Krishnaiengar's recommendation, therefore, that the pay of the Mestris appointed by him in the Tumkur and Chitaldroog Districts should correspond with those of the men in the Kolar District is approved. The Mestris in the Chitaldroog and Tumkur Districts, therefore, will from the 1st June 1892 draw pay Rs. 20 and horse allowance Rs. 5 per mensem until further orders.

## PART I

# MILITARY.

*Proceedings of the Government of His Highness the Maharaja of Mysore,  
(Military).—dated 10th May 1892.*

READ THE FOLLOWING LETTER :—

No. 2751—313, dated 12th January 1892, from the Inspector General of Police in Mysore, to the Chief Secretary to the Dewan of Mysore.

I have the honor to bring to your notice certain serious inconveniences and hardships entailed upon the people, arising out of Military Camps of Exercise, such as the last one held in the Bangalore District, in order that Government, if it sees fit, may stipulate in case of future Military manœuvres for some arrangements better calculated to obviate loss to the raiyats and inconvenience to the public.

2. The Commissariat of the British Military Department had their own contractor to supply their wants, but I am credibly informed he had to be given carts by the Revenue authorities, with the result that owing to the local supply of carts being insufficient or hidden away, carts on the road had to be impressed. In one instance, cart-men who had taken cotton to the Mills at Bangalore from Bellary or Anantapur, were impressed. These men said that they had left their homes a month before. In fact, such impressment is calculated, among other drawbacks, to interfere with ordinary traffic and even the great cattle fair at the Subrayankave in the Doddballapur Taluk, was affected. The gathering this year at the fair was smaller than usual owing, it was reported, to the fear that carts might be seized on the way. Other abuses consequent upon the movements of large bodies of the Military may be described below, *viz.* Occasional trampling of crops by horses and men. Petty thefts of sugar-cane, ballar and ground-nuts. Trespass by grass-cutters into fields, the grass of which the raiyats reserve for their cattle. Denudation of trees, including the avenue trees on the public roads, for tent pegs, and posts for temporary structures for affording shelter and petty larcenies of firewood, straw, fowls, &c., by camp followers.

3. One other matter coming nearer home is that our Silahdars who took part in the manœuvres were not paid batta. The pay of these men is small and the residue that remains to them after deducting the allowance for the maintenance of their horses and other contributions, is so small that it is hardly sufficient to afford subsistence even when they eat together, for the large families with which they are in many cases encumbered. Out in camp these had to pay for their food, apart from the meal which must still be kept up at their homes. In what proportion to prevalent current rates they actually paid, is perhaps, a question for further enquiry.

4. I would, in these circumstances, recommend the adoption of some such measures as the following. The Silahdars should be paid reasonable batta for the period spent in Camp. Contractors should be secured early enough by timely notice for every requisite, for the manœuvres including carts, straw, firewood, &c. The contractors should be given advances on sufficient security for making perfect arrangements for supplying everything that may be wanted. Special Magistrates should be appointed to investigate and punish offences committed by the rank and file and camp followers. At present, I believe they are left to be dealt with by the Officers Commanding the very Regiments to which the offenders belong.

5. Camp of Exercise may be a necessity, but I submit that they should only be occasionally held, unless the scene of operations be on ground mostly or wholly waste. The draft of this letter was written several months back, but I withheld it as I had not verified certain statements put forth. If necessary the Deputy Commissioner of Bangalore might be directed to make independent enquiries regarding the subject matter of this communication which is now only forwarded in an incomplete form, lest any Camp of Exercise, however, small, be contemplated in this season of scarcity.

No. 2271-3—197, DATED BANGALORE, 10TH MAY 1892.

ORDER THEREON.—Recorded and communicated to the Military Secretary to His Highness the Maharaja of Mysore and the Deputy Commissioner, Bangalore District.

T. ANANDA ROW,  
Chief Secretary.

To—The Inspector General of Police in Mysore.  
The Military Secretary to His Highness the Maharaja of Mysore.  
The Deputy Commissioner of the Bangalore District.

*Proceedings of the Government of His Highness the Maharaja of Mysore,  
(Military),—dated 11th May 1892.*

No. A, DATED 11TH MAY 1892.

**ORDER.**—The appended resolution of His Highness the Maharaja's Government will be issued for the information of all concerned.

R. G. JONES, CAPTAIN,  
*Offg. Military Secretary.*

**To**—The Deputy Commissioners of Districts,  
The Heads of Departments.

**RE-ORGANIZATION OF MYSORE HORSE.**

From the 1st April 1892, the Mysore Horse will be divided into two distinct Service Regiments; the one for Local Service and the other for Imperial Service.

2. The latter Regiment will be stationed for the present at Bangalore. It will be thoroughly equipped in every way and will be armed with breech loading carbines.

3. This force will, in the event of war, be brigaded with Her Imperial Majesty's Troops and should therefore be kept in a continual state of efficiency, ready for immediate active service anywhere.

4. With a view to the above, His Highness' Government have decided to put this Regiment into a thoroughly efficient state.

The three main items of expenditure will be:—

- (1) Saddlery and accoutrements, &c.,
- (2) Camp equipage and
- (3) Transport.

5. As the work required of the Imperial Service Regiment will be similar to that of Her Imperial Majesty's Native Cavalry, His Highness' Government have determined to assimilate the Imperial Service Regiment in matters of pay and discipline to the regular troops.

6. Revised standing orders for the Service Regiment will shortly be published.

7. The following Regulations, which have received the sanction of His Highness the Maharaja and which will in due course be embodied in the new standing orders, are published for information and guidance:—

I. The compensation for dearness of horse forage, sanctioned in para 4 of the Dewan's Memo, dated 25th March 1891, namely Rs. 2 per mensem for all grades up to and inclusive of Jamnada's, will be continued to both services as at present.

II. As a special concession to the Imperial Service Regiment, the Government will grant free to the Non-Commissioned Officers and men of that corps their full dress consisting of:—

|                                   | Non-Commis-<br>sioned Officers. |     | Lance Dafa-<br>dars and Sa-<br>wars. |     |

**VI.** With reference to Widows' Pensions, the Government of Mysore will adhere to the rules regarding widows of men "who die on foreign service" (as laid down for Her Majesty's troops), making the addition "*or who die from injuries received in the execution of their duty when not on Foreign Service.*"

**VII.** Every man of either Regiment will be called upon to swear allegiance to His Highness the Maharaja, his heirs and successors, and swear to obey the orders of such officers as His Highness may place over him, even though such obedience may cost him his life, and swear to his willingness to serve wherever he may be ordered to go.

**VIII.** His Highness' Government after due consideration have come to the conclusion that at present the Transport for the Imperial Service Troops must be formed as a separate Service.

The Military Secretary will arrange for the purchase of ponies for the above, utilizing for this purpose any undersized horses from the Government Stud Farm there may be on hand.

He will also arrange to provide pack-saddles and line gear for these Transport animals, and will submit a report showing how these animals can be best used during time of peace, to minimise cost of up-keep.

**IX.** The sword belt at present in use and the saddlery of the present troops being reported unfit for Imperial Service Troops, the Military Secretary is authorized to purchase saddlery for the Imperial Service Troops. But it is to be distinctly understood that the up-keep and purchase of saddlery and belts should be defrayed in future by all ranks and that this grant will not be repeated.

*Proceedings of the Government of His Highness the Maharaja of Mysore,  
(Military),—dated 11th May 1892.*

X. The Military Secretary will arrange for the purchase of suitable camp  
Camp Equipage. equipage for the Imperial Service Regiment.

XI. It having been pointed out that on a previous order of Government  
some of the Non-Commissioned Officers and Sawars  
of the Imperial Service Regiment have already re-  
ceived 2 suits, Khaki uniform, His Highness' Government have authorized the  
Military Secretary to provide 2 suits at starting for such of them as he finds on  
inspection have not yet received their clothing as previously sanctioned. In  
future the up-keep and purchase of Khaki uniform will be borne by all ranks as  
ordered in Rule III above.

XII. Calculating the horse's feed at  $3\frac{1}{2}$  measures dry kulthi per diem.  
compensation will be given to enable the Sawar to give his horse gram  
at 16 measures per rupee. If, owing to change of locality, other grains are  
substituted, compensation will be given to enable the Sawar to supply sufficient  
grain for As. 3 Pies 6 per diem.

XIII. It having been brought to the notice of Government that Soldiers of  
both Services are running into debt in their equip-  
ment account, the Military Secretary is authorized  
to deduct from the pay of all whose debt is greater  
than Rs. 48, Rs. 4 per mensem, and from all whose  
debt is over Rs. 36, Rs. 3 per mensem, until discharge of their debt.

The ordinary monthly stoppage which at present is Rs. 1—8—0 will, in  
future, be Rs. 2 per mensem for both Services.

XIV. Rupees 8 per mensem will be the pay of dismounted men of both  
Services.

MUZARAYI.

---

No. M. 168-77—CJR. 9, DATED BANGALORE, 6TH MAY 1892.

ORDER.—At present no Budgets are received from Districts for Muzarayi charges. The Government consider that in order to secure a watchful supervision over the expenditure on appropriate objects of the Muzarayi grants, it is necessary that they should have an annual statement, placed before them, of the receipts and expenditure of the Muzarayi funds.

2. The Deputy Commissioners of the several Districts are therefore requested to prepare Muzarayi Budget Estimates for the year 1892-93 in the forms A, B and C, herewith circulated and submit the same for sanction to Government in the Muzarayi Department before the end of June 1892 together with copies of the Talukvar Budgets showing institutionvar details. The institutionvar details may be in Kanarese.

2. The bulk of jewels belongs to the temples in the Mysore District. The Deputy Commissioner of this District and also the other Deputy Commissioners consulted, all recommend the sale of the superfluous jewellery.

3. Under such circumstances, Government accord sanction to the sale of the jewels referred to in the statements, in a public auction which should be held in the District Head-quarters in the presence of the Deputy Commissioner or the Assistant Commissioner doing Muzarayi work in each District.

4. The sale should be notified in the Mysore Gazette and the local Newspapers. Due publicity thereof will also be given by beat of Tom-tom in the District Head-quarters and the surrounding Taluks.

5. The sale proceeds will be credited to the funds of the respective temples. Separate orders will be issued for the investment of the same.

6. The jewels and ornaments belonging to Srichamarajeswaraswami and Virabhadradevaru in the Chamrajnagar Taluk and to Sosale Honnadevi in the Tirumakudlu-Narsipur Taluk appear to be very valuable and their estimated value amounts to Rs. 65,521—9—3. Special care is necessary in conducting the sale of these jewels. The Deputy Commissioner, Mysore District, is therefore requested to personally superintend the sale of the said jewellery, which may take place either at Mysore or Bangalore after giving wide publicity to the same. It is also desirable that an adequate notice should be given to the important trading firms at Madras and Bombay.

## EDUCATION.

*Proceedings of the Government of His Highness the Maharaja of Mysore,  
(Educational),—dated 18th May 1892.*

C. No. 36, DATED 18TH MAY 1892.

ORDER.—The subject of appointing a standing Text Book Committee for Mysore has for some time been before Government. It is resolved to appoint a strong Committee as a consultative body to help Government in the selection and preparation of text books on the lines laid down by the Government of India. Their chief functions will be the following:—

- (1) To select suitable text books for all Lower Secondary and Primary Schools of Mysore.
- (2) To indicate how far the existing text books require revision.
- (3) To lay down the lines on which new text books should be written and to arrange for their preparation.
- (4) To correct the text and prepare expurgated editions of Kannada and Sanskrit books for the use of schools and of candidates for the Local Examinations.
- (5) To suggest the text books for the Local Examinations both in the language and other subjects.
- (6) To select and recommend books for prizes and reference.
- (7) To review books offered by authors for patronage.

2. In the preparation of new text books for Vernacular Schools, care will be taken to see that the language and style adopted are such as are easily intelligible to a person ignorant of English. To make sure that this object is attained in the case of every new publication, it shall be approved by one or more Pandits on the Committee that are not likely to know the English books from which the subject matter may have been derived. It will also be necessary to see that the language and grammatical forms used in the text books are not too learned or pedantic to be easily understood by pupils and other readers ignorant of Sanskrit.

3. For the High Schools a preliminary list of selected books for every subject will be circulated every year in the month of June for remarks, suggestions or additions among the Heads of Colleges and High Schools as well as the members of the Text Book Committee. On the receipt of their replies, a final list of books authorized for use as text books in High Schools will be issued not later than the 15th of August. For every subject more than one text book will usually be selected from which the Head of each Institution will choose the text book he considers best for his pupils, the other books recommended for the same subject being kept for reference in the school library. Before the 15th of September if the Heads of Institutions will make their own selections from the list of authorized text books and indent for the number of copies likely to be required for use in their schools in the following year, the Curator of the Government Central Book Depot will take steps to keep a supply of the books indented for ready at the commencement of the ensuing year. It is hoped that by the preparation and publication of an authorized list of text books for High Schools in the manner above mentioned, the newest books will be brought to the notice of all teachers especially of those in the District High Schools, and variety in the use of approved text books as well as a certain degree of fullness and accuracy in teaching will be secured. If a good school book is published after the authorized list for the ensuing year is issued, it may if approved by Government be used as a reference book immediately and adopted as a text book in the year following that for which the last published list of authorized books is issued.

*Proceedings of the Government of His Highness the Maharaja of Mysore,  
(Educational),—dated 18th May 1892.*

4. The Education Secretary will be *Ex-officio* President of the Text Book Committee and he will appoint the Secretary to the Committee. The Committee may delegate any of its functions to Sub-Committees. The Secretary to the General Committee will be *Ex-officio* Secretary to every Sub-Committee. The General Committee will meet as often as the President may think it necessary to convene a meeting or at least once in three months. The Committee will submit an annual report to Government of the work done by it during the year. If a member leaves the Province for more than six months, he shall vacate his appointment. The Committee will have the power to recommend from time to time additions to the number of its members.

5. Government is pleased to appoint the following gentlemen to form the standing Text Book Committee. Government, however, reserves to itself the right of publishing revised lists of members whenever it may seem necessary to do so. The names of the members of the Committee will be notified in the official Gazette :—

| 1          | 1726—50.     | 1st  | The Deputy Commissioner of the Mysore District. | Forwarding copy of a letter No. 804, dated 7th March 1891, from the Superintendent, Mysore Revenue Survey, pointing out that the fixing of the jodi and quit-rent does not form the legitimate duty of the Survey Department, with a request that he will report what has been done to give effect to the orders contained in Government Proceedings No. 13043-5—762, dated 17th February 1892, sanctioning the restoration of certain lands as Talvar Service Inam in the village of Dodda Jataka of the Nagaman-gala Taluk and what Jodi the Deputy Commissioner would propose. |
| 2          | 1708—45.     | 2nd  | The 1st Assistant to the Resident in Mysore.    | Forwarding, for submission to the Government of India, five printed copies of the return of food grains and salt in the Mysore State for the fortnight ended 15th April 1892.                                                                                                                                                                                                                                                                                                                                                                                                     |
| 3          | 1729—52.     | Do   | The Deputy Commissioner of the Mysore District. | Requesting him to place himself in further communication with Colonel Cook, in the matter of taking water from some of the tanks in the Public Cattle kaval at Hunsur for lands under Hangaode channel in the Heggaddevan-kote Taluk, and constructing sluices provided with locks and keys to prevent their being indiscriminately opened, and, if the result be that sluices are still considered necessary, to request the Executive Engineer to do the needful.                                                                                                               |
| 4          | 1922—46.     | 3rd  | The Deputy Commissioner of the Kadur District.  | Observing, in the matter of allotment of certain lands for building purposes in the Chikmagalur and Koppa Taluks, that it is always inconvenient to appropriate out of large Survey numbers, small and insignificant bits of land as in the above case, that only one village site can be allotted for all the villagers, but that, if, for the convenience of an individual raiyat, he wishes to have a house adjoining the lands which he cultivates, he is at perfect liberty to utilize                                                                                       |

Chendrasekharaiya having died, his son Sankaraiya.         </td> <td></td> </tr> </table> <p>This is an appeal against the judgment of the Deputy Commissioner of Tumkur, dismissing the suit brought by Appellants for the office of Pateli. The facts of the case are briefly as follows:—</p> <p>In 1845, the 2nd Respondent's father performed the duties of Patel, but in the Register of that year, it is stated that there was no hakdar for the office, and that 2nd Respondent's father was simply doing the duties of the office. Subsequently 1st Appellant's late husband somehow obtained the office, and performed the duties of the office for some years. There is nothing to show when he obtained the office, but there are some papers to show that he was Patel in 1852. On his death, the 1st Appellant executed a <i>Karar</i> to the late father of the 1st Respondent in 1863, allowing him to do duties for 15 years. On the strength of this document, and with reference to the wishes of the villagers, the 1st Respondent's father Sivaramaiya was appointed Patel in October 1863. In the order issued to the 1st Respondent's father, the Amildar stated that the 1st Appellant's husband obtained the office by his connection with the original hakdars, and referred also to the agreement executed by the 1st Appellant. The 1st Respondent's father died in 1878. The office remained vacant till 1878 when the Amildar allowed the 2nd Respondent to do duties promising to consider his claims to the office if he performed his work well. He was confirmed in his office by the Deputy Commissioner in 1880.</p> | <i>Appellants.</i> | <i>Vs.</i> | <i>Respondents.</i> | 1. Gauramma.<br>2. Niranjanappa.<br>3. | 2          | 2171-2—<br>68. | 4th   | The Deputy Commissioner of the Mysore District and the Survey Superintendent. | <p>Appellants (the 2nd Appellant is the daughter's son of the 1st and the 3rd the son of the 1st) brought the suit in 1889, but it was dismissed on the ground that they failed to prove their title to the office. The present appeal is against this order of dismissal. Although it is true that there are no public Registers to support the claim of the Appellants, the Takid issued by the Amildar in 1863 clearly shows that 1st Appellant's father held the office as an heir of the original hakdars, and that 1st Respondent's father was appointed on the strength of the document executed by the 1st Appellant. The 2nd Respondent has admittedly no claim whatever to the office.</p> <p><i>Decision.</i>—Government were therefore pleased to direct that the daughter's son of the 1st Appellant (2nd Appellant) who is a minor be appointed as Patel, the present 2nd Respondent Sankaraya continuing to do duties of the office during his minority as his gumasta.</p> <hr/> <p>In the matter of Petition No. 944, dated 26th July 1890, from Varadachari of Kalale Village, Nanjangud Taluk, complaining against the imposition of wet assessment on his unirrigated lands Survey Nos. 65 and 66 in the Chattanahalli Village, Heggaddevankote Taluk, and praying that the lands be assessed as dry—read Deputy Commissioner's Nos. 1196 and 320, dated 6th January and 16th July 1891 respectively, reporting on the subject of Petitioner's complaint.</p> <p><i>Order.</i>—As it appears from the Memo of the Assistant Commissioner who inspected the lands under notice that Nos. 65 and 66 do not receive any irrigation from the Govinakatte in No. 64, and that the waste weir water of tank No. 46 runs over the fields only when the tank overflows, and that its supply cannot be depended upon throughout the year, the Government are of opinion that the numbers should be classed and assessed as dry. The Superintendent of Revenue Survey will be requested to revise the assessment accordingly. The Government note that all the lands in the neighbourhood, i. e., Nos. 64, 63 and 62 have also been classed and assessed as dry.</p> <hr/> |

The facts of the case are briefly as follows:—</p> <p>Appellant's father had certain Patta lands in his name, but on his death in 1879-80 they were registered in the name of the late husband of the Respondent who was an undivided consin of the deceased. The husband of the Respondent died in 1890, when Appellant claimed the Pattas in his name urging that he was an undivided member of the family, and that the</p>     |

| 6          | 2346—<br>P. 57. | 7th   | The Deputy Commissioner of the Tumkur District. | <p>Pattas were issued in the name of the Respondent's late husband in 1879-80, because he was then the eldest member of the family, he himself being a minor. Although the Amildar reported that the family was undivided, the Assistant Commissioner ordered the Pattas to be issued in the name of the Respondent. The appeal is against this order which is dated 6th December 1890. The Respondent admits that the family is undivided, and that the Appellant is managing the lands, but still wished to have Pattas in her own name.</p> <p><i>Decision.</i>—Government directed that as the family was admittedly undivided, the Pattas should be issued in the name of the Appellant.</p> <p>—</p> <p>Appeal No. 3057 of 18th March 1891.</p> <p><i>Appellant</i> . Arsogauda of Bechanhalli, Tiptur Taluk.</p> <p>On the 12th of April 1890, Appellant applied for 4-32 acres of gomal land for cultivation, and the Amildar granted it on 18th June 1890 and ordered the value (4 annas) of trees in the land to be collected from him. The money was accordingly paid. In July 1890, the raiyats of the village complained against the grant of the land without their knowledge and the Deputy Commissioner cancelled the grant on 20th December 1890 on the ground that the grant of gomal land without the permission of Government was contrary to the Land Revenue Code. The appeal is against this order.</p> <p>The Appellant's contention is that the Deputy Commissioner had no right to cancel the grant once made to him. Appellant states that the land was granted to him with the consent of the villagers but the papers forwarded by the Deputy Commissioner do not show whether the villagers gave any such consent or not.</p> <p><i>Decision.</i>—Government requested the Deputy Commissioner to forward the records connected with the original darkhast of the Petitioner, and furnish to Government the statement prescribed in Government Proceedings, dated 11th February 1891, No. 12469-77—259, with his opinion as to whether there is</p> |

Rangaiya of Dodda Naravangala, Tumkur Taluk.</p> <p>In June 1885, Petitioner was allowed by the Assistant Commissioner to erect a verandah in front of his house, Rs. 5 were collected from him on account of the land. In July 1885, Petitioner wanted to erect a verandah with mud roof, but he was told that he could not do so, and that Rs. 5 were taken from him only for the permission granted for a verandah with thatched roof. In 1887, Petitioner repeated his request for permission for a mud roof and his prayer was rejected. In 1889, Petitioner again repeated his request and it was also rejected in July 1889. Petitioner again urged his claim and it was finally rejected in December 1890. The appeal is against this order. The Appellant's contention is that he having paid the price of the land, he ought not to be prevented from using it as he pleases.</p> <p>The Assistant Commissioner's order dated 24th June 1885. No. 281, which grants the ground in question to the Petitioner does not impose any condition that the verandah erected thereon should be thatched.</p> <p><i>Decision.</i>—Government therefore observed that it was improper to prevent the Petitioner from raising any building he liked on the ground. The Deputy Commissioner's order was cancelled. Petitioner was at liberty to raise any building he liked.</p> |

| 9          | 2349—<br>P. 77. | 7th   | The Deputy Commissioner of the Mysore District. | <p>having held the office for 30 years, the Deputy Commissioner decided that the Respondent should wait till the death of the Appellant's father when he (Respondent) may have the office. Appellant's father died in February 1890 and the Respondent was appointed to the post in March 1890. The Appellant's contention is that his father having held the office for upwards of 30 years he alone is entitled to succeed. Appellant, however, admits that Respondent is a hakdar like himself and Respondent's father's name appears as such in the service Registers.</p> <p><i>Decision.</i>—This being so and the Appellant's father having held the office for upwards of 35 years, Government directed that Respondent should have his turn, and that Appellant's claim might be considered when the office again became vacant.</p> <hr/> <p>Appeal No. 1338 of 10th September 1891.</p> <p><i>Appellant.</i>                      <i>Vs.</i>                      <i>Respondent.</i></p> <p>Devamma of Kulya                      Srikantaiya.<br/>Firka, Heggaddevan-<br/>kote Taluk, Mysore<br/>District.</p> <p>Appellant's late husband who was Shanbhog of Kulya Firka, died in 1887, when her minor son Subbanna was appointed to the post, and Respondent a divided cousin of the deceased as his gumasta. The arrangement was made with the consent of the Appellant. In July 1889, Appellant complained that Respondent did not pay her anything for her maintenance, and requested that he might be removed and her son-in-law Nanjappa appointed in lieu. The Deputy Commissioner declined to comply with her request as Respondent agreed to pay her Rs. 3 per mensem for her maintenance. Appellant presented an appeal but the Government rejected her petition without giving her a hearing as the arrangement made by the Deputy Commissioner seemed <i>prima facie</i> to be proper. Appellant now requests that the Government decision may be reconsidered. She states that when she requested the Deputy Commissioner to remove the Respondent he set up his own title and claimed the office in his own right, and that he is therefore not a fit person to be her gumasta.</p> |

In his deposition before the Amildar, which forms the enclosure of the Amildar's Arzi, dated 18th December 1889, the Respondent stated that the hak was his own, that the late husband of the Appellant was Shanbhog only in name, and that he should not therefore be removed from the office. A man who had set up an adverse claim was not fit to be a gumasta on behalf of the minor.</p> <p><i>Decision.</i>—Government directed that Respondent be removed and that Appellant be allowed to nominate a competent gumasta, and that if the Respondent had any claim to the office, he might institute a suit for the same.</p> <p>Appeal No. 1982 of 14th October 1887.</p> <p><i>Appellants.</i>                      <i>Vs.</i>                      <i>Respondent.</i></p> <p>1. Srirangamma,<br/>Guardian of her minor<br/>son Krishnaiengar.</p> <p>In 1881, one Venkataramanaiya, Shanbhog of Kattaya Firka, divided brother of the late husband of No. 2 Appellant, embezzled Government money and absconded. He was dismissed from office and the Government directed that his "family should forfeit the <i>Miras</i> of the office," and that the sum misappropriated should "be recovered from the next heir who may be appointed to the office." A notice was accordingly issued to all the heirs of the dismissed man, and one Narasimbachari, brother of the 1st Appellant and a distant cousin of the dismissed man, was appointed to do duties of the office temporarily. This took place in 1881. None of the heirs came forward to claim the office till 8th September 1884. Respondent, a stranger to the family of the dismissed man, was appointed to the post on 24th September 1884, on his offering security for the due performance of his duties. Narasimbachari who was appointed to do duties temporarily, hearing that Respondent was about to be appointed, requested on 8th September 1884, that security might be taken from him and he appointed to the post. He also produced a deposit Rs. 200 as security on 10th September 1884, but no attention was paid to his request. He, preferred no</p> |

The 1st Appellant has no objection to the appointment being given to the 2nd Appellant's son, and his only contention is that the office should go either to him or to the 2nd Appellant, who are the next heirs of the dismissed Venkataramanaiya, and not to the Respondent who is an utter stranger. The 2nd Appellant is also willing to pay the sum embezzled by the dismissed Venkataramanaiya Rs. 327 immediately and Rs. 327 in two yearly instalments. The 1st Appellant is willing to pay the embezzled money at Rs. 50 a year. The Respondent is also willing to pay the embezzled money Rs. 300 immediately and the remainder within one year.</p> <p>Government considered that the Deputy Commissioner was right in having refused the appointment to the brother of the 1st Appellant, as he failed to fulfil the condition on which Government directed the appointment to be given to one of the heirs. When Respondent was appointed, neither the 1st Appellant nor his brother offered to refund to Government the money embezzled by the dismissed Venkataramanaiya, the offer made by the 1st Appellant 3 years after the appointment of Respondent cannot be now accepted. But the 2nd Appellant was entitled to consideration. He was (and is still) a minor and it was not right that his hereditary right should suffer permanently for any fault on the part of his mother and guardian.</p> <p><i>Decision.</i>—Government therefore directed that the minor Krishnaiengar be registered as hakdar subject to confirmation as Shanbhog on his attaining majority, and on his paying the sum embezzled by the dismissed Venkataramanaiya. If Srirangamma paid down the whole money embezzled at once, the minor might be appointed at once as Shanbhog. In either case the Respondent would be allowed to continue in office till the minor attained age, with this difference that if Srirangamma paid down the money at once, the Respondent would be allowed to withdraw his security, and made to pay a suitable allowance to the minor till he attained his majority; but if she did not pay down the money, he would hold the office on the existing terms without the liability of paying anything for the</p> |

Narasappa, Shanbhog of Gujjanahalli, Mulbagal Taluk.</p> <p>Appellant was dismissed from office on 31st January 1891, it having been proved that he collected certain sums from raiyats (Rs. 23-12-5) in 1884-85 to 1887-88 and delayed to pay the same to Government till 1889 when the present complaint was made. The Appellant's explanation is that he did not embezzle any money, that a sum of Rs. 23-12-5 was erroneously shown in the accounts as balance against 3 individuals, and that as he discovered the error, he quickly paid the amount. He has not however substantiated his statement by accounts and the</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

The Deputy Commissioner states that the Appellants were evidently not born in 1864, when their father allowed the office to go to the 1st Respondent. In October 1887, the 1st Appellant stated that his age was 24 and the 2nd Appellant states that his age was 20 years. The 2nd Appellant was clearly not born in 1864, and he could not therefore question the action of his father before his birth. The 1st Appellant did not bring the suit for 6 years after he attained his majority even supposing that he was in existence in 1864. The Appellant's Advocate argued that the cause of action arose in 1877 when Mudgeregauda was appointed and not in 1864, when the father of the 1st Respondent was appointed, but the argument is inadmissible. It was in 1864 that Appellants' father allowed the office to go out of his family, and the cause of action clearly commenced on that date.</p> <p><i>Decision.</i>—Government confirmed the dismissal of the suit and observed that though the Appellants had no right to sue for the office on the ground that the appointment already made was illegal, yet there was nothing to prevent their claim being considered by Government when a vacancy occurred, since the appointment had not gone entirely out of the family, and the Appellants as members of the family were entitled to as much consideration as any other members of the family.</p> |                   |            |                     |                                      |  |                                                                                                      |

The Appellant did first bring the suit against all the sharers, but subsequently withdrew it as against all but the three Respondents. This the Sub-Division Officer should not have allowed. The Appellant is now willing to cancel his withdrawal of the suit against the other sharers, and prosecute his suit against all the sharers to establish his right to the <math>\frac{1}{3}</math>th share claimed.</p> <p><i>Decision.</i>—Government therefore remanded the case for further enquiry and decision on its merits.</p> <hr/> <p>Appeal No. 2107 of 1891.</p> <table border="0"> <tr> <td><i>Appellants.</i></td> <td><i>Vs.</i></td> <td><i>Respondent.</i></td> </tr> <tr> <td>1. He died during the Famine of 1876-77. In 1878 the Jamabandi officer appointed the 1st Appellant Obli in the place of his uncle. But Obli also having abandoned the office and gone abroad for livelihood shortly after his appointment, the Respondent who is unconnected with the family was appointed in 1880. The Appellants brought the suit in 1890, and the Deputy Commissioner, finding that neither the Appellant nor the Respondent was the hakdar, gave each a village, <i>vis.</i>, Margondanhalli to the Respondent, and Yarrappanhalli to the Appellants. The present appeal is against this decision.</p> <p><i>Decision.</i>—Under the peculiar circumstances of the case, the decision of the Deputy Commissioner appears equitable and is confirmed. Srinivasaiengar.</p> <p>Sitaramaiya, represented by Mr. Advocate Nanjappa.</p> <p>The villages noted in the margin now form one Firka. Of these, the Pateli right in No. 5 belongs exclusively to the Appellant, and that in Nos. 2, 3, 4, 6, 7 and 8 exclusively to the Respondent.</p> <table><tr><td></td><td></td><td>Revenue.</td><td></td></tr><tr><td>1.</td><td>Amble ..</td><td>3,223</td><td></td></tr><tr><td>2.</td><td>Timmanhalli ...</td><td>189</td><td></td></tr><tr><td>3.</td><td>Yerehalli ...</td><td>117</td><td></td></tr><tr><td>4.</td><td>Kodihalli ...</td><td>455</td><td></td></tr><tr><td>5.</td><td>Gaudanhalli ...</td><td>396</td><td></td></tr><tr><td>6.</td><td>Benkanhalli ...</td><td>402</td><td></td></tr><tr><td>7.</td><td>Gudderhalli ..</td><td>351</td><td></td></tr><tr><td>8.</td><td>Naduvana Gud-danhalli,</td><td>Not given</td><td></td></tr><tr><td></td><td></td><td>Bechirahk</td><td></td></tr></table> <p>In village No. 1, the Appellant has <math>\frac{1}{3}</math>rd share, and the Respondent has <math>\frac{2}{3}</math>rd share. These facts are admitted by both sides. Respondent was appointed Patel of the whole Firka in 1886, and the Appellant's contention is that he should either be appointed as joint Patel, or the office of Pateli in some villages given to him in lieu of his <math>\frac{1}{3}</math>rd right in No. 1, and his full right in No. 5. The Respondent does not agree to give up any of his villages to the Appellant.</p> <p><i>Decision.</i>—Under the peculiar circumstances of this case, the Government direct that Appellant be appointed Patel of village No. 5, and Respondent, Patel of villages Nos. 2—4 and 6—8, and that Respondent continue to be Patel of No. 1 paying Appellant one-fourth of the Potigi he derives for his share in that village. When a vacancy occurs, the Appellant may be appointed Patel of No. 1 on condition of his paying to the Respondent a Potigi allowance of one-half. This decision will be re-considered when the rules for holding the office by rotation which are under contemplation are passed.</p> |  |  | Revenue. |  | 1. | Amble .. | 3,223 |  | 2. | Timmanhalli ... | 189 |  | 3. | Yerehalli ... | 117 |  | 4. | Kodihalli ... | 455 |  | 5. | Gaudanhalli ... | 396 |  | 6. | Benkanhalli ... | 402 |  | 7. | Gudderhalli .. | 351 |  | 8. | Naduvana Gud-danhalli, | Not given |  |  |  | Bechirahk |  |

On appeal from the 1st Appellant the Government in their Proceedings, dated 26th April 1882, No. 683—34, directed that as he (the 1st Appellant) was not concerned in the irregularity of his brother, he might be appointed to the post after the expiration of 5 years, Surappa, a stranger, being permitted to do duties in the meantime. Surappa was not however appointed and the Respondent, who is also a stranger, was appointed to the post and his confirmation was recommended by the Deputy Commissioner in his letter No. 1296—402, dated 27th March 1885. No final orders have been issued on this reference.</p> <p>The Deputy Commissioner's reason for recommending the confirmation of the Respondent, instead of giving the appointment to the 1st Appellant, is that it has been subsequently found that he (1st Appellant) granted 3 receipts in 1881 to certain raiyats for a sum of Rs. 19-8-0 which amount was brought to account in 1883, and that he failed to show in the "Bakipattis" of 1881 certain sums due by the raiyats. When these receipts were granted and the Bakipattis prepared, 1st Appellant was not the registered Shanbhog. He was only doing duties for his brother.</p> <p>In February 1892, the Deputy Commissioner reported that in an enquiry instituted subsequent to 1885 it was found that the 1st Appellant and his brother who was dismissed, altered the assessment of certain fields, in consequence of which Rs. 224 have to be refunded to the raiyats and Rs. 29-15-0 have been newly brought to account and that the Appellants were willing to make good the whole amount. The errors or frauds in consequence of which the above amount has become payable, were committed prior to the date of the Dewan's order, which shows that the 1st Appellant was not responsible for them.</p> | <i>Appellants.</i> | <i>Vs.</i> | <i>Respondent.</i> | 1. | 26         | 3722—<br>P. 35. | 29th  | The Deputy Commissioner of the Chitaldroog District. | <p>Appeal No. 64 of 1891.</p> <p><i>Appellant.</i>                      <i>Vs.</i>                      <i>Respondent.</i></p> <p>Krishna Jois, represented by his guardian Chitambar Jois, represented by Mr. Advocate K. T. Narasimmaingar.</p> <p>Nadiga Ranganna, represented by Mr. Advocate Narayan Rao.</p> <p>This is an appeal against the decision of the Deputy Commissioner adjudging the office of Shaubhogi now held by the 1st Appellant to the Respondent. The Appellant represents that owing to his absence from the country, he was not able to conduct the suit and requests that he may be allowed to produce all the evidence he has in support of his claim. The Respondent's Advocate has no objection to the Appellant's prayer being complied with.</p> <p><i>Decision.</i>—The Deputy Commissioner is therefore requested to allow the Appellant an opportunity of proving his title, and after taking such additional and legally admissible evidences that may be adduced by both parties, to dispose of the case on the merits.</p> |

The appeal is against this order. The record of enquiry shows that the bark was removed with the connivance of the petitioner. Appellant was absent on the date fixed for hearing. The appeal is dismissed.</p> <p>Appeal No. 60 of 1891.</p> <p><i>Appellant.</i> Vs. <i>Respondent.</i></p> <p>Lingaiya of Bogana-halli, Chellakere Taluk, Chitaldroog District. Tippiaya.</p> <p>In 1872, Respondent's grand-father Rudrappa, who was the Patel of the village, resigned his office. Appellant's father who was Respondent's uncle's son said he could not discharge the duties of the office. The Appellant stated that the office might be registered in his name and a Gumasta appointed, and that if this could not be done he did not want the office at all. Respondent also wanted the office but wished to appoint a Gumasta. The Deputy Commissioner ordered that Respondent might be appointed if he would himself discharge the duties, but the Respondent having declined to perform the duties, one Puttalinganna, a stranger, was appointed to the office in 1874. In the Pakka Potigi Settlement of 1878-79, however, Respondent was appointed Patel. In 1878, Respondent agreed in writing to pay Appellant half share in the remuneration and in default to allow him to hold the office by turns. In 1890 Appellant brought a suit for the office on the ground that Respondent failed to act up to the agreement entered into in 1878 and when the suit was going on, the parties entered into a razinama, the Respondent agreeing to give up the office to the Appellant, but the respondent shortly afterwards withdrew the Razinama and the Deputy Commissioner dismissed the suit with a remark that the Appellant may assert his claim when a vacancy occurs.</p> <p>2. The present appeal is against this decree.</p> <p><i>Decision.</i>—The Government consider that Appellant has no better claim to the office than</p> |

The appeal is dismissed.</p> <p>Appeal No. 1697 of 1891-92.</p> <p><i>Appellant.</i>                      <i>Vs.</i>                      <i>Respondents.</i></p> <p>Chikka Sivaramaiya                      1. Sitaramaiya.<br/>of Mallekaval,                      2. Subbaiya.<br/>Koratagere Sub-<br/>Taluk, Tumkur<br/>District.</p> <p>The father of the Respondents who was a Shanbhog having prepared a false Census statement and entered therein the names of dead persons, was dismissed from office in March 1878, and the Appellant who is the divided uncle's son of the dismissed man was appointed in his place. Respondents were then minors, the 1st Respondent was of 15 or 16 years of age, and the 2nd Respondent was of 10 or 12 years. The dismissed man died in about 1886. In 1883 and 1890 Respondents claimed the office, and they were ordered to bring a regular suit. They accordingly brought the suit in August 1890 and the Assistant Commissioner decreed in their favor. Appellant appealed to the Deputy Commissioner, and he dismissed the appeal on the ground that the appeal was not brought within the time prescribed.</p> <p>The Appellant's contention is that as the Respondents' father was dismissed from office and he was unconditionally appointed to the office, the Respondents have no right to claim the office.</p> <p>The Government observe that intimation of the Assistant Commissioner's decision was given to the Appellant on 18th June 1891. He applied for a copy of the decree on 21st July 1891, it was ready on 25th July 1891 and was delivered on 27th July 1891. The appeal to the Deputy Commissioner was preferred on 31st July 1891. The Deputy Commissioner was therefore right in having dismissed the appeal under Section 211 of the Revenue Code, but considering the special circumstances of the case, and as the provisions of the Revenue Code are not yet widely known, the Government are pleased to excuse the delay.</p> |

| 30         | 3821-2—<br>P. 82. | 29th  | The Deputy Commissioner of the Bangalore District. | <p><i>Decision.</i>—The Government are of opinion that as the Appellant was appointed to the office unconditionally, he cannot be removed from office. The Respondent's Advocate argued that the 1st Appellant's appointment was made by the Jamabandi officer, that it was not formally confirmed by the Deputy Commissioner, and that therefore the appointment should be considered temporary. The Government cannot admit the argument, as Jamabandi officers are competent to make the appointments. The decision of the lower Court is therefore modified to the extent that the Respondents shall not enter on the duties of the office at once. Their names will be entered in the registers as bakdars and one of them appointed to the post on the office becoming vacant by the death or dismissal of the Appellant.</p> <hr/> <p>Petition No. 2723, dated 7th February 1891.</p> <p><i>Appellant</i> ... Gopalkrishnaiya, Archik of Sriramadevar at Kamasamudra, Anekal Taluk.</p> <p>Petitioner was in possession of a tamarind tree standing on an Inam site belonging to the Pagoda of Ramadevar in the village of Sopahalli. The khanshumari account of 1858-59 shows that the tree was in possession of the Petitioner as Archik. In 1888, certain persons residing in the neighbourhood of the site complained that the tree was a source of annoyance to them inasmuch as leaves of the tree fell on their houses, owls collected on the tree and the branches were likely to fall on their houses. The Deputy Commissioner Mr. Syed Nasiruddin, finding that the tree was a source of annoyance to the neighbours, ordered, in December 1890, the tree to be felled and sold and the proceeds credited to Government. It was accordingly sold in February 1891 and its proceeds (Rs. 28-11-0) credited to Government.</p> <p>The appeal is against the order of the Deputy Commissioner.</p> <p><i>Decision.</i>—The Government consider that the Deputy Commissioner acted arbitrarily in having in his Revenue capacity ordered the tree in the possession of a private owner to be sold, and there is no justification whatever for crediting the proceeds to Government. It is true that petitioner stated that he had no</p> |
